

THE RX HYBRID
LIMITED EDITIONS

HYBRID POWER, REFINED LUXURY

The pursuit of perfection is the primary motivating force at Lexus. It is at the core of everything we do, from our design and engineering standards, to our manufacturing processes, quality control and customer care.

We seek to innovate in all areas, to offer effortless performance, intuitive technology, peerless build quality and attention to detail to ensure the finest possible driving experience at all times.

It's a philosophy that can be seen in the RX 400h, the world's first high-performance hybrid SUV. At the heart of the vehicle is the groundbreaking Lexus Hybrid Drive system, intelligently applying power from the petrol engine and two electric motors to deliver exceptional performance, low fuel consumption and class-leading emissions.

And now, the RX 400h Limited Edition and Executive Limited

Edition offer further refinement. The arresting profile, with silver or black roof rails and black or body-coloured rear spoiler, will most likely attract your attention first.

Step inside, and you'll begin to appreciate a world of detail, from the functional, such as the eight-way adjustable leather seats, to the aesthetic, like the carefully chosen aluminium or black wood trim. To make your drive even more rewarding, the Multimedia

and Navigation package is now standard on the RX 400h Limited and Executive Limited Editions. This package offers voice control, satellite navigation, Bluetooth® connectivity, air-conditioning and the Mark Levinson® Reference Surround Sound audio system.

We invite you to experience the power and refinement of these exclusive RX 400h Limited Editions for yourself. Available from £35,995 OTR.

RX 400h LIMITED EDITION ENGINE AND TRANSMISSION

Valve mechanism	Variable Valve Timing with intelligence (VVT-i)
Cylinders/valves	V6/24
Capacity (cc)	3,311
Maximum torque (Nm@rpm)	288@4,400
E-FOUR (Electric four-wheel drive); Electronically-controlled Continuously Variable Transmission (E-CVT)	

MOTORS

Front:	
Power (kW@rpm)	123@4,500

END-OF-LIFE VEHICLES
Taking care of the environment is a key priority for Lexus. We work to ensure that the environmental impact of our vehicles is minimised throughout their life cycle - from design, production, distribution, sales and service to end-of-life. For further information, please visit www.lexus.co.uk.

Please note: while every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. The brochure cannot be regarded as infallible and as such does not constitute an offer for sale of the particular vehicle shown. The vehicle shown here is left-hand drive. Information in this brochure was correct at time of going to press.
