"WITH THE ALL-NEW LEXUS RX 450h WE'VE PUSHED THE LIMITS OF BOLD AND ICONIC DESIGN, WHILE BUILDING ON THE PIONEERING VALUES OF PREVIOUS RX GENERATIONS."

Takayuki Katsuda, RX Chief Engineer

AMAZING IN MOTION

Welcome to Lexus, and to the latest Lexus RX 450h – a remarkable new luxury SUV that fuses bold design with peerless refinement and pioneering technology. Developing the new RX 450h required breakthroughs in many areas. For instance, while our designers worked around the clock to sculpt the most stunning Lexus SUV ever built, Lexus 'master drivers' refined the RX 450h's suspension set-up on the Nürburgring. Meanwhile, our technicians developed a new painting process to highlight the vehicle's ultra-sharp lines. These examples – and many more in this brochure – set out to show that, at Lexus, we don't stop until we create amazing.

SHARPENED SOPHISTICATION

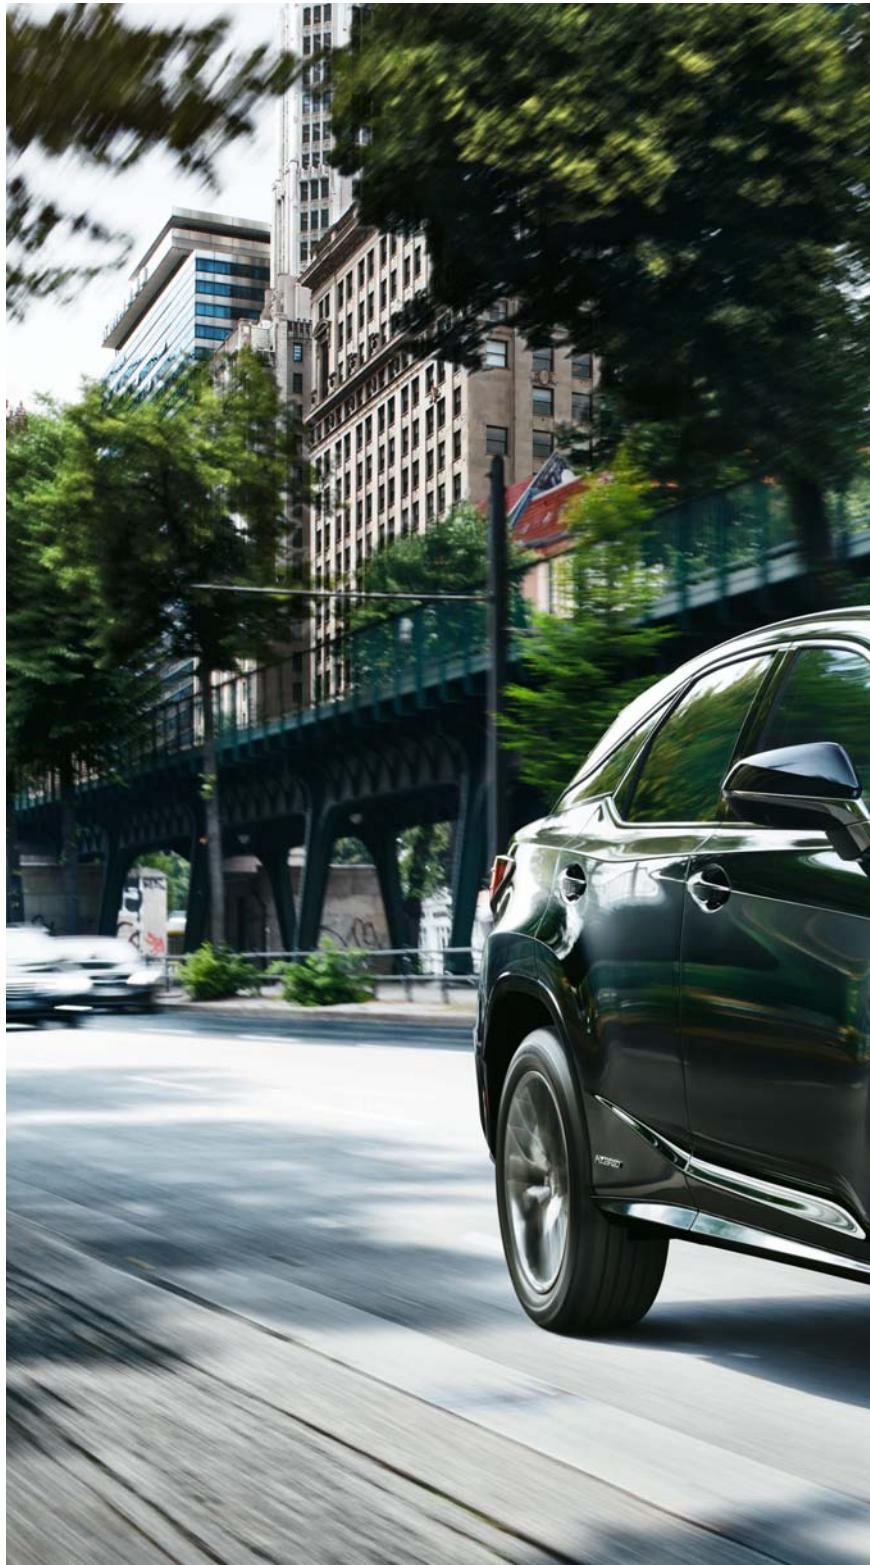

Always groundbreaking, always ahead, in 1998 Lexus launched the RX, the first ever SUV to offer the refinement of a luxury sedan. In 2004, disrupting mainstream thinking again, we introduced the world's first luxury hybrid - the pioneering RX 400h SUV. Demonstrating our dedication to creating amazing, the all-new RX 450h is the sharpest Lexus ever to leave our design studios, featuring an unrivalled level of sophisticated luxury as standard. Fitted with a colour Head-Up Display and large central 12.3-inch Lexus Premium Navigation, the RX 450h is also available as an F SPORT model.

SEDUCTIVE STRENGTH

**TAKING LEXUS DESIGN TO THE NEXT LEVEL,
THE ALL-NEW RX 450h LUXURY SUV FUSES
ELEGANCE WITH SOPHISTICATION.**

The fourth-generation RX 450h pictured here owes its super-sharp looks to the incredible efforts of the Lexus design team, who worked around the clock to create one of the most seductive SUVs ever built. Determined to sculpt a vehicle that raises heartbeats, and thrills owners every day, they continuously refined and improved the design right up to the final production deadline. The result is an unmistakably luxurious SUV – featuring a bold ‘spindle grille’ and intriguing ‘floating roof’ – with futuristic LED headlights and sequential indicators enhancing the aura of this amazing new Lexus.

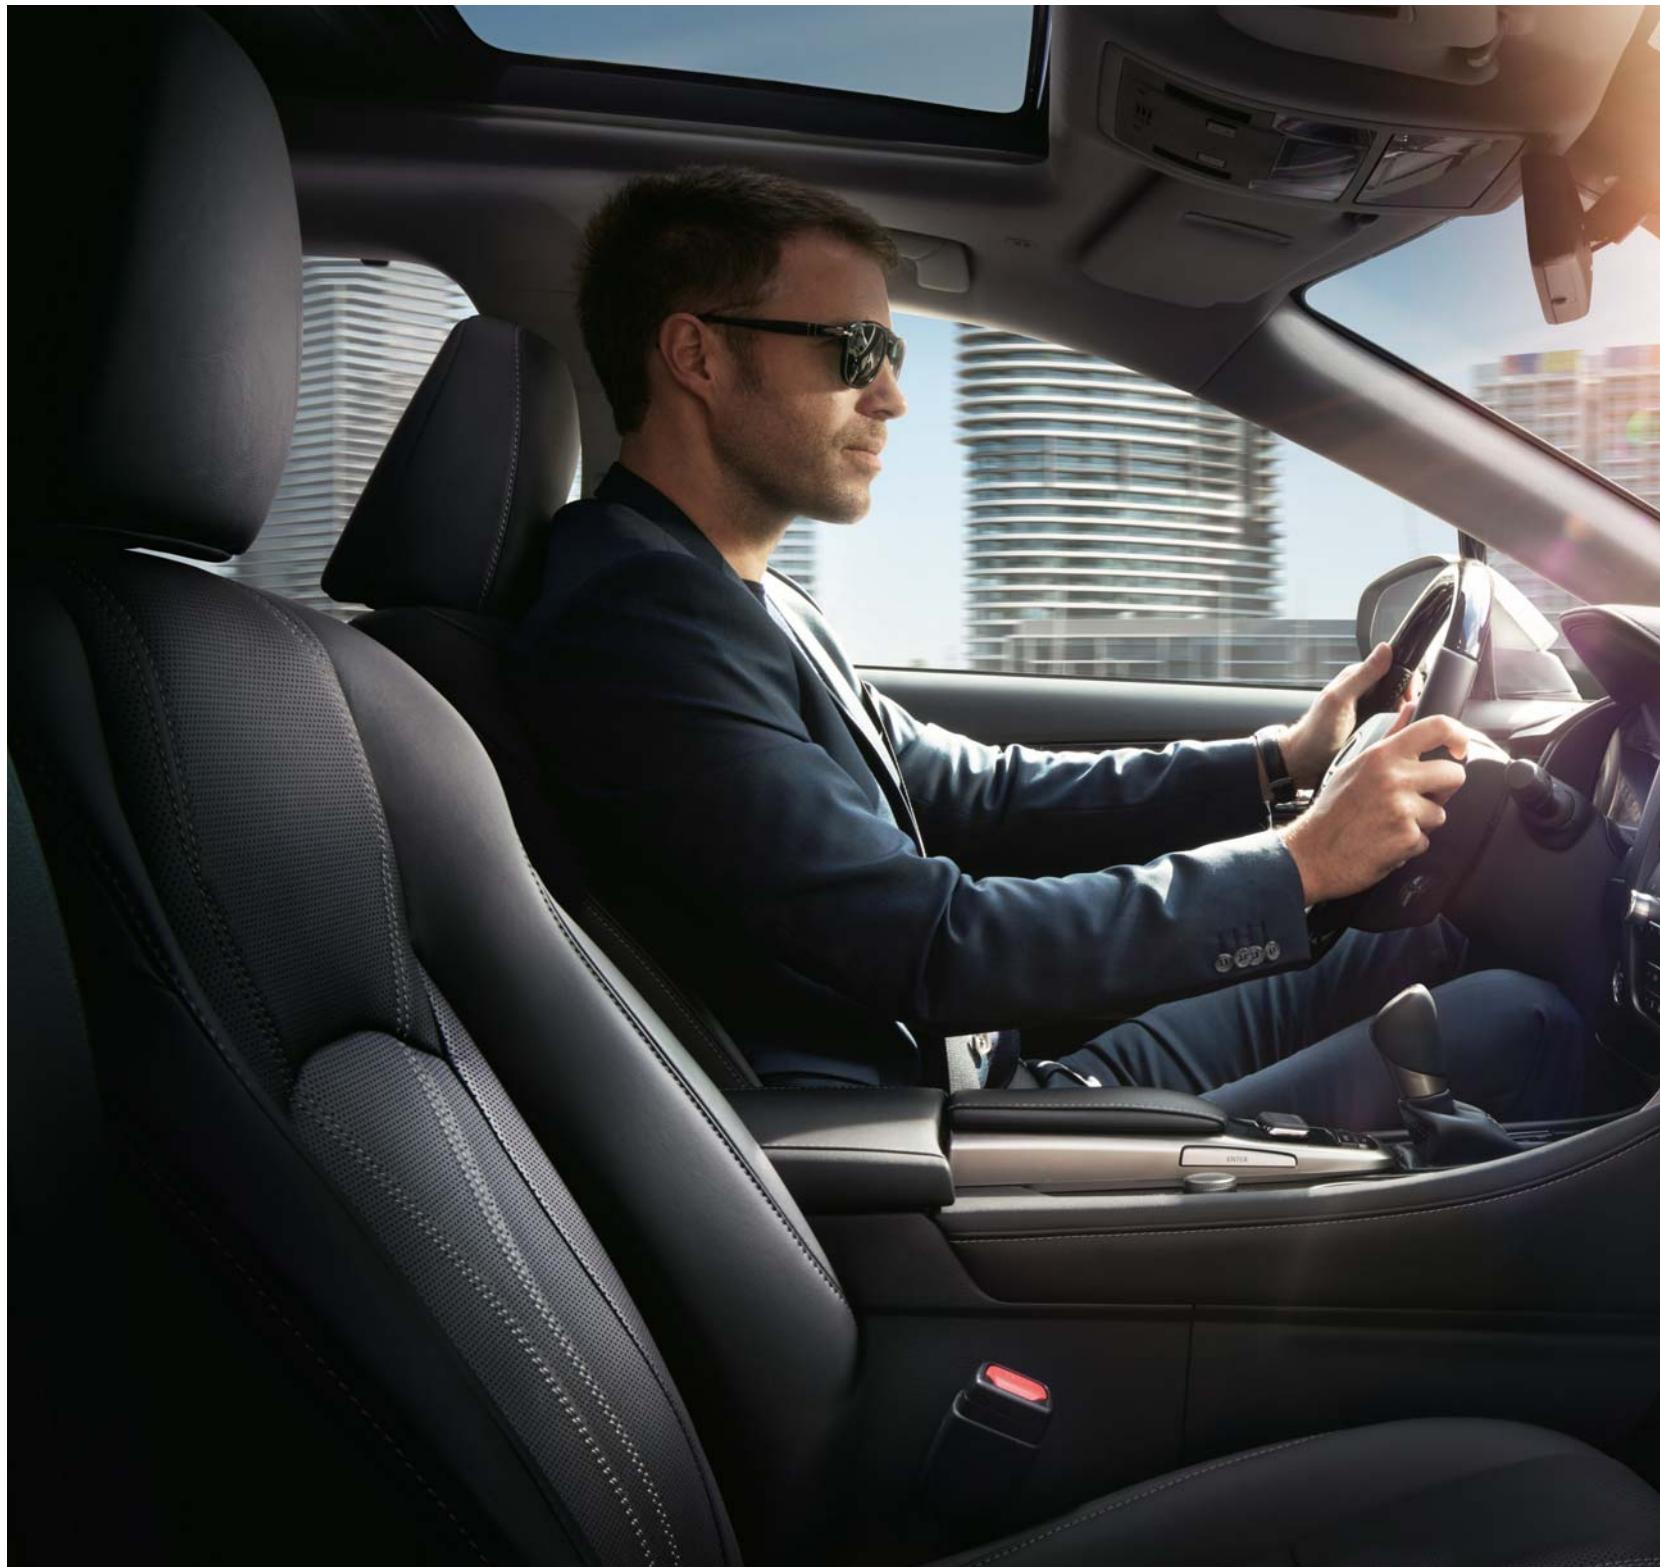

RX Sport

A VIBRANT, ATHLETIC NEW LOOK FOR ONE OF THE WORLD'S FINEST LUXURY SUVS. THE RX Sport SPECIAL EDITION ADDS A DYNAMIC EDGE TO THE SHARP LOOKS AND FUTURISTIC LINES OF THE RX.

Discover more on pages 46-47.

THE NEW RX 450h

INTERIOR LUXURY

AVANT-GARDE SURROUNDINGS

EXPERIENCE A POWERFUL SYNTHESIS OF SEDUCTIVE INTERIOR DESIGN, INNOVATIVE TECHNOLOGY AND LEXUS CRAFTSMANSHIP.

Owning the new RX 450h is a very special experience. For instance, as you approach, all four door handles will gently illuminate to create a unique Japanese 'Omotenashi' welcome. Once seated, sense how the flowing lines of the cabin embrace you, with all interfaces positioned perfectly for easy operation. Then admire the centre console - here the wooden trim is laser etched by skilled craftspeople, creating an intriguing lined pattern, before being hand polished to create a beautiful sheen. Rear passengers have ample leg- and headroom as they relax in sumptuous leather seats (that power-fold and recline) while enjoying the exclusive pleasure of 15-speaker Mark Levinson® audio.

THE NEW RX 450h

DRIVING DYNAMICS

MASTERS OF ENGINEERING

**ENJOY DRIVING PRECISION AND WORLD-
CLASS LEXUS REFINEMENT IN A BEAUTIFULLY
BALANCED LUXURY SUV.**

It wasn't just in the design process where RX 450h Chief Engineer, Takayuki Katsuda, strived for excellence: "I told my team to leave no stone unturned in making the new RX 450h more enjoyable to drive." For instance, after wind tunnel testing to optimise aerodynamics, an aluminium bonnet and tailgate were fitted to make the vehicle lighter and more agile. Then breakthrough adhesive and laser welding technology was applied to create a stiffer chassis, thus lessening vibrations and improving steering precision. Finally, our 'master drivers' – who worked on the Lexus LFA supercar project – improved the driving position and tuned the suspension to deliver a truly amazing SUV experience.

INTELLIGENT POINTS OF VIEW

GET THE BIG PICTURE USING 12.3-INCH LEXUS PREMIUM NAVIGATION, COLOUR HEAD-UP DISPLAY AND PANORAMIC VIEW MONITOR.

Today, drivers are bombarded by ever increasing volumes of data. To combat this, our designers endeavoured to simplify life in the new RX 450h. Positioned unobtrusively in your field of vision, key information is projected via colour Head-Up Display onto the windscreens, or presented on a multi-information display between the main instruments. Audio, climate and navigation systems are accessed on the central 12.3-inch Lexus Premium Navigation using the latest Remote Touch controller. For easy parking, a near-360° Panoramic View Monitor provides a virtual 3D view of your RX 450h, with on-screen guides to assist manoeuvring.

RECOGNITION FOR SAFETY

LEXUS SAFETY SYSTEM + USES MILLIMETRE-WAVE RADAR AND A CAMERA TO DETECT DANGER AHEAD.

Lexus has always spearheaded the development of safety and driver support technologies, and tests all new models in the world's largest driving simulator. Benefiting from our lead in accident prevention research, the new RX 450h is now fitted with the breakthrough Lexus Safety System + as standard equipment. This includes a Pre-Collision System with pedestrian detection; Lane Keeping Assist with Sway Warning function to help you stay on course; Automatic High Beam for enhanced vision at night; and Dynamic Radar Cruise Control, which regulates your speed to that of the vehicle in front.

THE NEW RX 450h

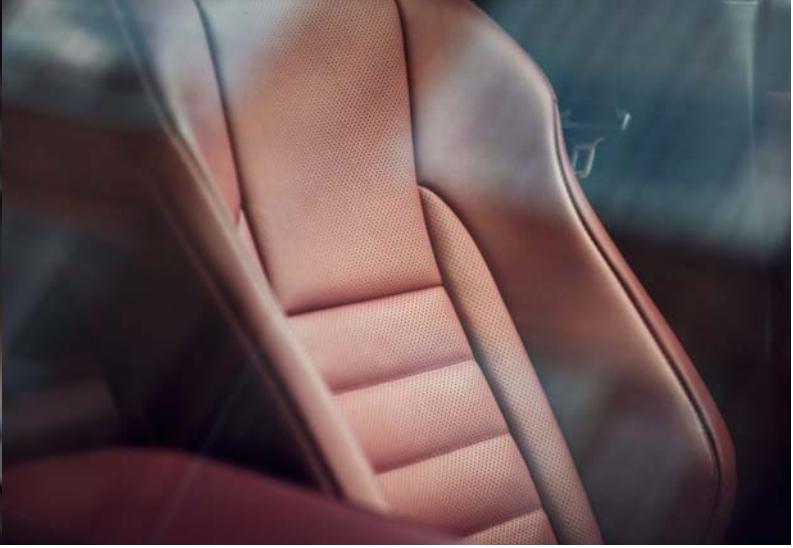

LEXUS QUALITY

'TAKUMI' CRAFTSMANSHIP

QUALITY
BY LEXUS

WITH PRODUCTION OVERSEEN
BY 'TAKUMI' MASTER
CRAFTSPEOPLE, EVERY RX 450h
UNDERGOES A 'TYphoon TEST'
BEFORE DELIVERY.

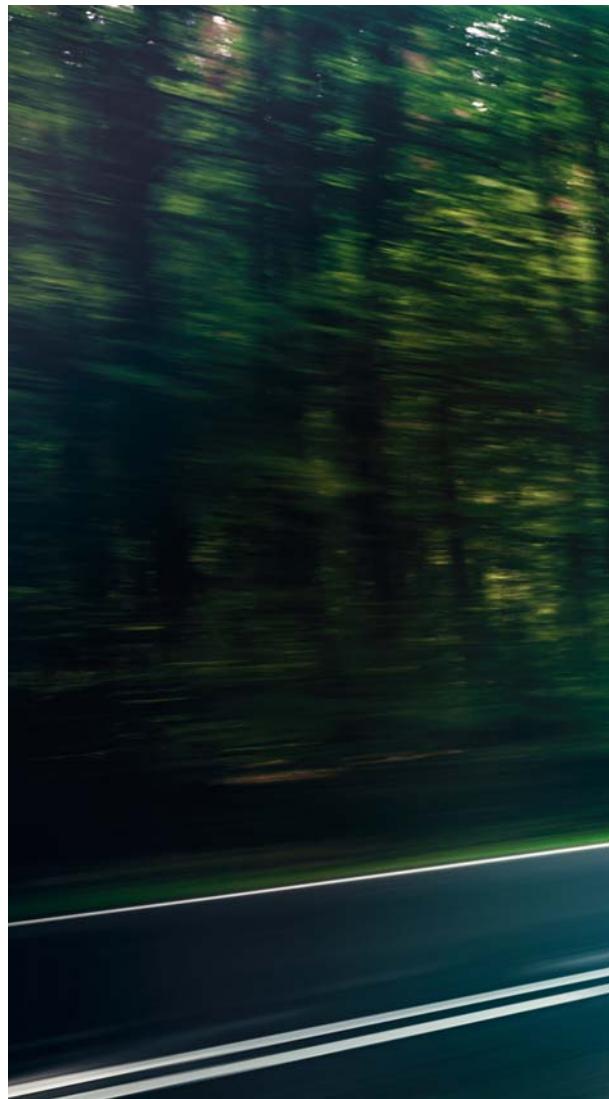

The new RX 450h resets the benchmark for luxury SUVs, with its Laser Cut Dark Wood inserts and sumptuous leather seats – hand stitched by an elite team of seventeen 'Takumi' craftspeople. Manufactured at our Kyushu plant in dust-free, clean room conditions, paint shop employees enter two vacuum chambers to remove particles from their special suits and hair. A water screen – nicknamed 'Niagara' – further reduces dust. In the paint shop our engineers had to adjust the spraying process in order to accentuate the super-sharp lines of the new RX design.

Before the final coat is applied, each foundation coat is wet sanded by hand (a time consuming process normally reserved for coach-built cars) to achieve a perfect surface. Prior to delivery, every RX 450h undergoes a 'typhoon test' with high pressure water jets before a final 30 km test drive to check for smoothness and world-class refinement.

THE NEW RX 450h

THE POWER OF h

THE POWER OF h

FULL HYBRID
BY LEXUS

TWENTY YEARS OF HYBRID
LEADERSHIP, OVER 1 MILLION
CARS POWERED BY LEXUS
HYBRID DRIVE, AND THAT'S
JUST THE BEGINNING.

Twenty years ago, Lexus engineers recognised the enormous potential of hybrid's seamless blend of petrol and electric power. In 2004, we launched the pioneering RX 400h, the world's first Full Hybrid luxury SUV. With all larger components engineered in house, Lexus Hybrid Drive is an ever-evolving, highly intelligent and flexible drivetrain. Accounting for the vast majority of luxury hybrids on the road today, Lexus offers a wide range of hybrid models and we recently delivered our millionth car powered by Lexus Hybrid Drive.

Equipped with the latest third generation Lexus Hybrid Drive, the new RX 450h offers effortless driving and class-leading environmental performance. Capable of driving short distances in zero emissions EV (Electric Vehicle) mode, it recharges on the move, meaning no 'plugging in' concerns or low battery levels to inhibit your freedom. Together with the unique hybrid ownership experience, you'll enjoy substantial financial savings thanks to lower CO₂ emissions, fuel consumption and running costs - along with considerable tax advantages and high residual values.

THE NEW RX 450h RANGE

THE NEW RX 450h

RX 450h: Full Hybrid performance and LED headlights. All-Wheel Drive delivers smooth and seamless power to all four wheels, with Electric Vehicle mode for near silent progress. All RX 450h models are fitted as standard with 10 airbags.

RX 450h F SPORT: Pioneering Lexus Hybrid Drive power, F SPORT-tuned Adaptive Variable Suspension and more reactive Electric Power Steering. Bolder F SPORT 'spindle grille' outside, F SPORT seats and exclusive sports equipment on the inside.

THE NEW RX 450h

FULL HYBRID

RX 450h

DRIVE THE SUV BENCHMARK FOR FULL HYBRID PERFORMANCE, DELIVERING 313 DIN hp OF SOPHISTICATED POWER.

Powered by our latest Lexus Hybrid Drive, the pioneering RX 450h intelligently combines a 3.5-litre V6 petrol engine with two electric motors, delivering seamless power to all four wheels. Thanks to the instantaneous torque of the electric motors, you can accelerate to 100 km/h in 7.7 seconds, while emitting just 120 g/km* of CO₂. Alternatively, use Electric Vehicle mode to drive in near silence, using no petrol and producing zero CO₂ or NO_x. The RX 450h's hybrid battery never needs charging and occupies minimum room, resulting in generous luggage space.

* For the Eco grade equipped with 18" alloy wheels.

THE NEW RX 450h

F SPORT

CUTTING EDGE ENJOYMENT

THE NEW RX 450h F SPORT IS DESIGNED TO THRILL, AND TUNED FOR A MORE DYNAMIC DRIVING EXPERIENCE.

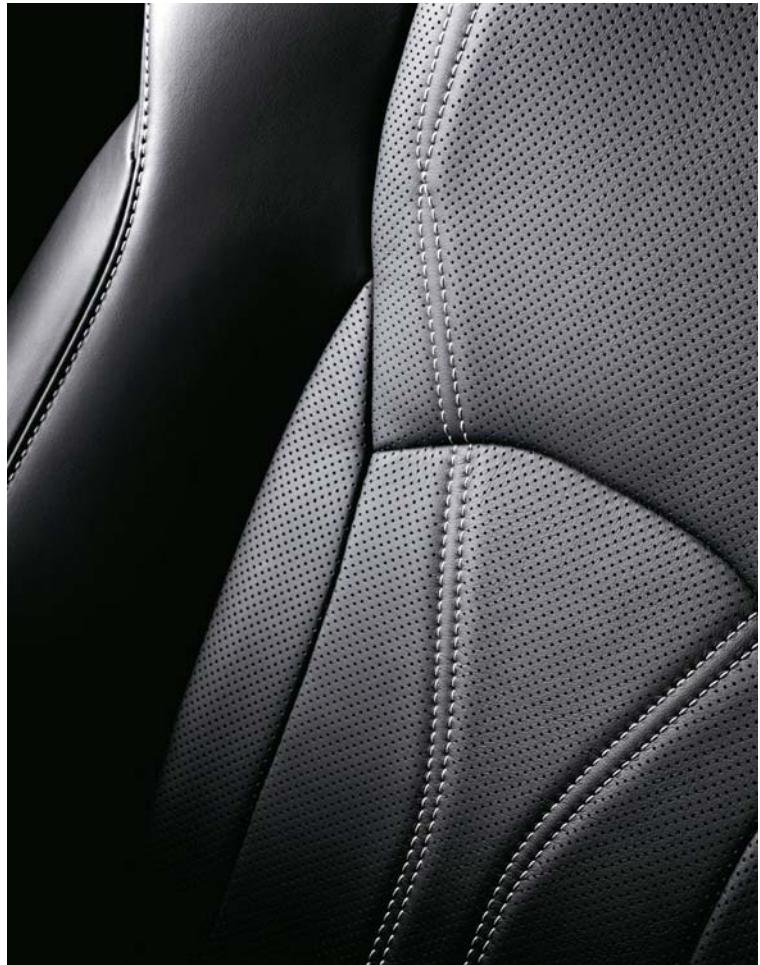

Driving the boldest RX 450h ever, the F SPORT design 'spindle grille' and large 20-inch alloys are sure to turn heads wherever you venture. Inside, you'll enjoy an F SPORT steering wheel, aluminium pedals and highly supportive leather sports seats built using 'integrated foaming' technology. On the road, sports-tuned Adaptive Variable Suspension and an active stabiliser deliver extra responsiveness, while advanced sound engineering creates an unforgettable F SPORT experience.

BREAKTHROUGH ENGINEERING

The new RX 450h is amazing to drive and handles more like a luxury sedan than a large SUV. This quantum leap forward in driving dynamics was made possible by engineering changes in nearly every area. Fitted with a Full Hybrid drivetrain, the RX 450h was developed in the world's most advanced driving simulator – and then refined over many hundreds of thousands of kilometres.

RX 450h

Comprising a 3.5-litre V6 Atkinson Cycle petrol engine and two high output electric motors, Lexus Hybrid Drive offers great performance yet is kind to the environment, with combined CO₂ emissions from just 120 g/km* and fuel consumption from 5.2 l/100 km*. When braking or decelerating, kinetic energy is captured by the two electric motors and converted into electric power. This is stored in the compact hybrid battery (located under the rear seat) for later use when driving in Electric Vehicle mode or accelerating swiftly. The battery never requires external charging and recharges during normal driving.

* For the Eco grade equipped with 18" alloy wheels.

STRONGER CHASSIS

The latest RX 450h is incredibly precise and responsive to drive thanks to a stronger chassis, improved suspension and new steering technology. Advanced laser screw welding and adhesive bonding techniques combine to produce an SUV of great strength, which rewards drivers with refined high speed handling characteristics. Crumple zones front and rear absorb energy in an accident, while the steering column is also engineered to collapse in a severe frontal collision. Strengthened pillars, floor members and side impact beams dissipate energy even further.

ADAPTIVE VARIABLE SUSPENSION

For a more engaging drive, Adaptive Variable Suspension intelligently controls the damping force on all four wheels. This not only improves ride comfort, but also increases handling stability.

DRIVE MODE SELECT

Located on the centre console, Drive Mode Select allows you to choose between ECO, NORMAL, SPORT S and SPORT S+ modes, for maximising the car's efficiency, dynamism or refinement. For the first time, RX 450h drivers can also use the CUSTOMIZE mode to tune the engine, hybrid system, chassis, and air conditioning functions.

ALL-WHEEL DRIVE / E-FOUR

The RX 450h AWD model features E-FOUR that gives seamless performance and confident traction over rougher terrain. The innovative E-FOUR drivetrain features the addition of a 50 kW electric motor mounted on the rear axle, which provides instant torque on demand.

ADVANCED AERODYNAMICS

The RX 450h has excellent aerodynamics, thanks to a near-flat underbody and rear spoiler. To reduce the overall drag coefficient, Lexus engineers also redesigned the door mirrors and added winglets at strategic positions around the vehicle. These measures not only enhance stability and handling, they also improve fuel efficiency and reduce wind noise.

ADVANCED SAFETY

LEXUS SAFETY SYSTEM +

Every new RX 450h comes equipped with our breakthrough Lexus Safety System + that combines Pre-Collision System, Dynamic Radar Cruise Control, Lane Keeping Assist, Road Sign Assist and Automatic High Beam in one powerful package.

PRE-COLLISION SYSTEM

Millimetre-wave radar and an on-board computer calculate collision risk ahead. If the risk is high, the driver is alerted by audible and visual warnings and brake pressure is increased. When a collision is deemed unavoidable, the brakes will be applied automatically as necessary and the front seatbelts tightened.

PEDESTRIAN DETECTION

As part of the Pre-Collision System, if an object (such as a pedestrian) is detected in front of the RX 450h, automatic braking will activate when the car is travelling between about 10 and 80 km/h to help avoid a collision.

LANE KEEPING ASSIST

Lane Keeping Assist (LKA) uses a camera in the front windscreens to monitor your position in lane. If you start drifting out of lane, LKA will activate a warning buzzer and give corrective steering input.

AUTOMATIC HIGH BEAM

At night, Automatic High Beam uses the same camera as Lane Keeping Assist to detect oncoming vehicles and automatically dip the high beam headlights. This reduces the chance of accidentally dazzling other drivers and lets you concentrate on the road ahead.

DYNAMIC RADAR CRUISE CONTROL

For a more relaxing drive, Dynamic Radar Cruise Control maintains a set distance between the new RX 450h and the vehicle ahead, even if that vehicle varies its speed.

ROAD SIGN ASSIST

The Road Sign Assist (RSA) system on the new RX 450h recognises traffic signs using the windscreen mounted camera, and provides information to the driver in the multi-information display. RSA can detect signs that are compliant with the Vienna Convention (including electroluminescent and flashing signs).

■ ADAPTIVE HIGH-BEAM SYSTEM

An adjustable LED Adaptive High-beam System prevents the RX 450h from dazzling other road users. A total of 11 independent LED chips in the headlight are enabled/disabled for precise control of the illuminated and non-illuminated areas.

TEN AIRBAGS

All RX 450h models are equipped with ten airbags and seatbelt pre-tensioners. In a collision, impact intensity sensors activate front dual-stage driver/passenger airbags and side airbags accordingly. Front seat passengers also benefit from cushion airbags for knee protection, while curtain shield airbags run the full length of the side windows.

EURO NCAP 5-STAR RATING

The new RX 450h was awarded the highest, 5-star rating in prestigious 2015 Euro NCAP tests. Scores for all areas were well above the minimum required to achieve five stars, with the best pedestrian protection score ever achieved by a large SUV. This places the new RX 450h as one of the very safest vehicles in its segment.

■ INTELLIGENT PARKING SENSORS

In addition of alerting you when the front or rear parking assist sensors detect an object in your path at speeds below 15 km/h, Drive Force Limiting Control reduces acceleration and warns you to 'brake' via the multi-information display. Should a collision prove unavoidable, Brake Control would bring the RX 450h to a halt.

■ BLIND SPOT MONITOR

Radar devices mounted in the rear bumper detect vehicles in adjacent lanes that are not visible in the door mirrors. If the driver is indicating to change lane and a vehicle enters the blind spot, a warning signal appears in the relevant door mirror(s).

■ REAR CROSS TRAFFIC ALERT AND BRAKING

Enhancing the security provided by Intelligent Parking Sensors, Rear Cross Traffic Alert and Braking uses the Blind Spot Monitor radar to detect vehicles approaching the area behind the RX 450h when reversing in car parks. Should a collision prove likely, Drive Force Limiting Control and Brake Control would activate to avoid or mitigate collision damage.

Available as part of the Lexus Safety System +.

Available as an option, part of a pack or standard on specific grade(s).

EXTERIOR FEATURES

18" ALLOY WHEELS

Sophisticated 7-spoke alloy wheels come standard on the new RX 450h.

18" SILVER ALLOY WHEELS

A bold 5-spoke design with a silver finish and big personality. Like all Lexus alloys, it is precision engineered for strength and optimum drive balance.

20" ALLOY WHEELS

Give your new RX 450h a bold and dynamic look with these dark silver 5-twin-spoke machined alloy wheels.

20" ALLOY WHEELS

Add a personal touch to your new RX 450h with these 5-spoke wheels that can be customised with different colour inserts.

ALLOY WHEEL INSERTS

Cleverly designed to co-ordinate the colour of your car's body into the spokes of its 20" alloys. The inserts fix securely to the wheels and are available in sonic white, black and copper brown.

■ TRIPLE LED HEADLIGHTS

Sophisticated triple 'L'-shaped headlights use the same LED light source for both high and low beam. For a unique aura, they are underscored by Lexus-signature LED Daytime Running Lights.

■ SEQUENTIAL LED INDICATORS

Enhancing its sophisticated looks, sequential front and rear LED indicators make the new RX 450h stand out even more in traffic.

■ LED REAR LIGHTS

Powerful 'L'-shaped LEDs create crystal-like linear illumination from the rear corners of the RX 450h to the centre of the tailgate. These extra-wide rear lights offer sharp visibility and an eye-catching look.

■ LED FOG LIGHTS

LED front fog lights juxtapose with the 'spindle grille' and LED daytime running lights. Compared to conventional lights they also help reduce overall energy consumption.

■ WELCOME ILLUMINATION

As you approach the RX 450h with the key in your pocket or bag, gentle lights on the door handles illuminate to welcome you.

■ ADVANCED DOOR MIRRORS

Designed to reduce wind noise, heated door mirrors incorporate an indicator, Blind Spot Monitor and Panoramic View Monitor. Electro chromatic technology reduces dazzle at night, and the mirrors fold electrically for negotiating narrow spaces. When reversing they also tilt downwards for enhanced vision.

Available as an option, part of a pack or standard on specific grade(s).

Available as an accessory.

EXTERIOR FEATURES

SUNROOF / ALUMINIUM ROOF RAILS

An electric, tilt and slide, glass sunroof can be specified on the new RX 450h. Extruded aluminium roof rails are also available. Enhancing the crossover's overall look, they offer sports functionality for transporting skis, bikes or surfboards.

FLOATING-ROOF DESIGN

To the rear of the RX 450h you'll notice distinctive blacked-out and chrome framed C-pillars, which provide a floating-roof effect never before seen on a Lexus.

PANORAMIC ROOF

A large factory-fitted panoramic roof adds a sense of open-air freedom and sunshine to the RX 450h cabin. There is also an opening glass section at the front to let fresh air into the cabin.

SMART POWER TAILGATE

A remote controlled tailgate ensures convenience, especially when your arms are full of shopping. With the key in your pocket or bag, simply place your hand or arm close to the Lexus rear badge and the tailgate will open. It also remembers how far you usually open it and automatically stops at this point.

REAR LOWER TAILGATE GARNISH

Subtle, yet very stylish. The chrome garnish fits along the bottom of the trunk door to add an extra design detail to the rear of your car.

SIDE DOOR CHROME GARNISH

A bold dash of chrome follows the lower side contours of your RX 450h to emphasise its sculptured urban styling.

FRONT SKIRT

Integrates along the lower edge of the RX 450h's bumper to create an exhilarating low profile look of power and individuality.

SIDE SKIRTS

Designed to combine with and extend the styling of the side sills and give your car a distinctly sporty appearance.

SIDE STEPS

Attractive town and country styling in a smart black finish, with a non-slip step surface for safe and easy access to your car.

PARKING ASSIST, REAR

To make parking even easier, sensors in the rear bumper link with an in-car beeper to warn of obstacles in your way. The beeper can be turned off when not required.

INTERIOR FEATURES

FRONT SEATS

Sumptuous leather front seats make use of the 'integrated foaming' production process. This motorsport-inspired technology allows greater comfort and lateral support, while extra powerful suction type seat ventilation is available too.

FLEXIBLE SPACE

A practical 40:20:40 split folding rear seat comes standard on all RX 450h models, which allows easy stowage of larger items like a bike or surfboard. The central hatch lets you carry long items such as skis. With all rear seats folded down there is also room to carry bulkier objects.

LEATHER STEERING WHEEL

This 3-spoke leather steering wheel features finger rests and a cross-section optimised to fit comfortably in your hands. Available with heating for colder mornings, integrated switches control - where specified - audio, telephone, multi-information display, DRCC and Lane Keeping Assist.

LEATHER / WOOD DESIGN

On the Luxury grade, this heated steering wheel can optionally be specified in a leather / wood design. There is a choice of wood colour and finish.

SPACIOUS REAR SEATS

While the front seats feature a new frame construction that offers more space to rear passengers, lengthening the RX 450h's wheelbase has also contributed to increased cabin space and legroom comparable with that of our LS flagship sedan.

POWER REAR SEATS

You can upgrade to a fully electric folding mechanism, which is operated via a number of conveniently located controls. Rear seat passengers can also partially recline their backrests while the central armrest remains perfectly level.

CLIMATE CONCIERGE / NANOË® TECHNOLOGY

Constantly monitoring temperatures inside and outside the RX 450h, breakthrough 'Climate Concierge' automatically adjusts cabin, seat and steering wheel temperatures. Infrared sensors track the body temperature of your rear seat passengers, adjusting air conditioning and seat heating/cooling. Additionally, award-winning nanoe® technology releases microscopic, negatively charged particles into the cabin to purify the air and effectively deodorise seats. They also have a pleasant, moisturising effect on your skin and hair.

LED AMBIENT ILLUMINATION

LED ambient illumination is fitted to the doors, instruments, foot wells and other areas of the cabin to create a relaxing yet sophisticated atmosphere when driving at night. The amount of light has been optimised, taking into consideration the nighttime visibility of the inside door handles and reflections while driving.

SMART CONSOLE BOX

Designed for convenient storage of items like DVDs and CDs, the centre console box is even illuminated to help you find possessions in the dark. There's storage space for your owner's manual, and a USB port and AUX for charging digital devices.

LASER CUT DARK WOOD BY YAMAHA

Innovative laser technology is used to engrave the wood on the centre console and door trim, exposing a layer of aluminium and creating a beautiful lined effect. These inserts are manufactured exclusively by the craftspeople at Yamaha.

ADJUSTABLE CUP HOLDERS

Cleverly designed, the two cup holders on the centre console have a high-grip mat at the bottom of the cup holder, enabling plastic bottles to be easily opened with one hand. The front cup holders are adjustable and capable of holding tall plastic bottles, or short cups and cans.

TEXTILE FLOOR MATS

Black or brown mats made of acuelour to protect the cabin carpets and complement their sound absorbing qualities. Special safety fixings prevent the driver's mat slipping.

RUBBER FLOOR MATS

The ultimate in tough protection for your car's cabin carpets against mud, dirt, sand and dust. The driver's mat has a special safety fixing to hold it firmly in place.

Available as an option, part of a pack or standard on specific grade(s).

Available as an accessory.

AUDIO AND MULTIMEDIA

EXTRA-WIDE HEAD-UP DISPLAY

Vehicle data is projected in colour directly onto the windscreens. The largest Head-Up Display yet fitted to a Lexus (240 mm x 90 mm) lets you check data like navigation commands or audio settings without taking your eyes off the road ahead.

MULTI-INFORMATION DISPLAY

This 4.2-inch colour TFT (Thin Film Transistor) is fitted between the two main instruments and keeps you informed about all key data including safety warnings and navigation directions.

EXTRA LARGE DISPLAY

Perfectly positioned for a relaxing drive, the extra large 12.3-inch central display can be operated by voice command or Remote Touch. Its split-screen capability allows you to simultaneously access information, such as Lexus Premium Navigation and climate information.

PANORAMIC VIEW MONITOR

For easier driving in confined spaces, four cameras provide a near-360° view around the entire vehicle. Panoramic View Monitor also creates a virtual 3D view of your RX 450h, with on-screen guides to assist close-quarter manoeuvring in the city.

LEXUS PREMIUM NAVIGATION

With vivid 3D graphics and many mapping options, Lexus Premium Navigation is operated by the latest Remote Touch or voice commands. The system can even generate a QR code for your smartphone, to help you reach your final destination on foot.

LEXUS CONNECTED SERVICES

The new RX 450h offers services like Online Search, Google Street View®, Panoramio® or Connected Traffic. For extra convenience you can even forward a route from your laptop or tablet to the RX 450h's navigation system.

■ WIRELESS CHARGER

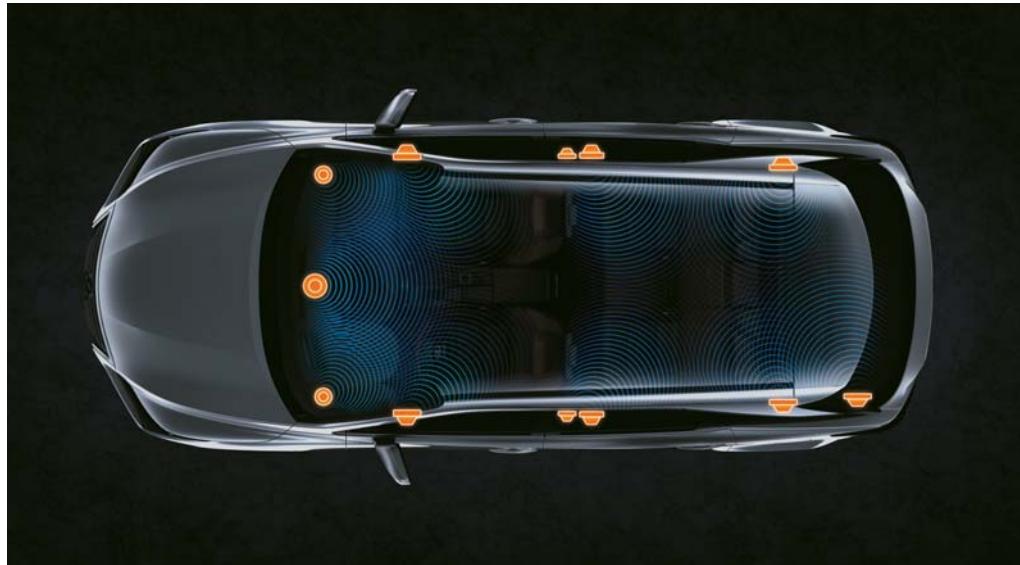

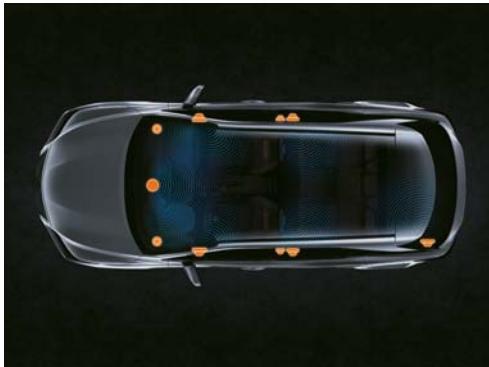

Charge compatible smartphones such as the iPhone 6 or other electronic devices using the inductive wireless battery charger, conveniently positioned at the front of RX 450h's centre console.

○ LEXUS NAVIGATION

Upgrades your car's media display to provide full map pan-European navigation including speed limit and camera notification*, RDS-TMC traffic information** and on-line search.

* Where it is legal to do so.

** Depending on local service availability.

9 OR 12-SPEAKER PIONEER® AUDIO

A 9-speaker Pioneer® audio system is fitted as standard to Eco, Comfort and Executive grades. This features an AM/ FM RDS tuner, CD player and Bluetooth® connectivity. The 12-speaker Pioneer® audio system (with subwoofer) is standard on the F SPORT model.

■ MARK LEVINSON®

The 15-speaker Mark Levinson® Premium Surround system with GreenEdge™ technology is tailored to the acoustic properties of the RX 450h. It delivers a peerless 7.1-channel digital home-theatre experience enhanced by Clari-Fi™ that rebuilds sound lost in MP3 digital compression.

■ Available as an option, part of a pack or standard on specific grade(s).

○ Available as an accessory.

RX Sport

The RX Sport pack adds a dynamic edge to the sharp looks and futuristic lines of the RX. So now you can turn even more heads as you enjoy leading-edge technology, astonishingly refined power and world-leading quality that has been overseen by 'Takumi' master craftspeople.

BLACK 'SPINDLE GRILLE'

The RX Sport features an exclusively finished black 'spindle grille' that enhances the RX's powerful appearance. The fog lights have a black surround, to draw attention to the intriguing geometry of the car's front end.

20" ALLOY WHEELS

These beautifully sculpted 5-twin-spoke wheels, with black finish, are designed to make a confident statement about the power and precision of the RX.

BLACK MIRRORS

The door mirrors are finished in black, giving the car a more assertive impression.

BLACK REAR DIFFUSER

The lower part of the bumper is in black, adding further distinction.

F SPORT

Tuned by the team that developed the Lexus LFA supercar and our high performance 'F' models, the new RX 450h F SPORT carries the spirit of these amazing cars. Exclusively designed – with sports-tuned suspension, more reactive Electric Power Steering and performance dampers as standard – Adaptive Variable Suspension and SPORT S+ mode deliver more engaging performance.

F SPORT DESIGN

A bolder 'spindle grille' featuring an exclusive mesh grille and a lower spoiler with satin-finish chrome protector combine to accentuate the RX 450h F SPORT's dynamic looks. Details like an F SPORT badge (incorporating the curves of the Fuji Speedway), black door mirrors and distinctive 20" F SPORT alloy wheels underline the SUV's strong character.

F SPORT INTERIOR

Vibrant 'Dark Rose' leather upholstery (with a black roof lining) is the signature interior colour on the RX 450h F SPORT. Exclusive new F SPORT seats feature 'integrated foaming' technology for added lateral support while cornering. Aluminium inlays perfectly complement the beautifully crafted F SPORT steering wheel, inspired by that of our iconic LFA supercar. Finished in perforated leather, the F SPORT gearshift design matches the steering wheel to create an exciting sports look.

F SPORT 20" WHEELS

Designed exclusively for the F SPORT, these 20" alloys are finished in dark metallic paint to reflect the purposeful, sporting aspects of the car.

F SPORT INSTRUMENTS

This F SPORT central meter features innovative Thin Film Transistor technology and a design inherited from the LFA supercar. The display features a tachometer needle and digital speed indicator, as seen on Lexus F marque cars.

G-SENSOR

For a more engaging drive, a new G-Sensor displays the RX 450h F SPORT's lateral and longitudinal G-forces in the multi-information display. The screen also presents the steering angle, throttle position, and hydraulic brake pressure.

ALUMINIUM PEDALS / SCUFF PLATES

Offering excellent grip characteristics, drilled aluminium pedals reflect the motorsport design heritage of the new RX 450h F SPORT. Front door scuff plates provide durable protection. Finished with a brushed aluminium look, they are inscribed with the Lexus logo.

STANDARD EQUIPMENT FOR ALL GRADES

ACTIVE SAFETY AND DRIVING DYNAMICS

Active brake lights
Braking, stability, steering and traction systems¹
- ABS / BAS / EBD / ECB / EPB /
EPS / TRC / VSC

ACCESSORIES

HOLDER FOR iPAD®

Slots into the rear entertainment system seat-back docking device to provide a base for passengers to use and charge their iPad® as they travel.

REAR ENTERTAINMENT SYSTEM

A powered seat-back docking device and portable DVD player with 7" screen and comprehensive multimedia input including USB, SD card and mobile phone AV.

COAT HANGER

When there is no device in the rear entertainment system, you can slot a Lexus coat hanger into the empty dock to keep your jacket wrinkle free.

SIDE MOULDINGS

Reliable protection for the side panels against minor scrapes and damage. Available in black or in a colour to match your car.

LUGGAGE TRUNK LINER

Made of tough, flexible plastic with a non-slip surface pattern and a raised lip around the edges, the liner protects the luggage space carpet against mud, dirt, sand and liquids.

REAR BUMPER PROTECTION PLATE, BLACK

Made of a rugged black composite material to provide durable protection for the rear bumper paintwork when loading and unloading the rear luggage space.

REAR BUMPER PROTECTION PLATE, STAINLESS STEEL

Combining style and strength - and made of polished stainless steel - the plate has a wrap-over edge to protect the rear bumper when loading and unloading the boot.

ACCESSORIES

REAR FOLDABLE BICYCLE HOLDER

A lightweight, high strength lockable design for carrying up to 2 bicycles. Includes an integral lights and licence plate holder with 13 pin socket.

ROOF-TOP BICYCLE HOLDER

This lockable, lightweight holder has special grips to secure both the bicycle wheels and the frame. Conveniently, the frame grip can be adjusted at roof height.

SKI AND SNOWBOARD HOLDER

Lockable holder with a soft inner grip to secure skis or snowboards without damaging them. Attaches to your car's cross bars and will hold 6 pairs of skis or 4 snowboards.

LUGGAGE BOX

A high capacity aerodynamic design that's ideal for holidays. It opens from both sides, has multi-point central locking and is finished in titan colour with an 'aeroskin' textured lid.

DETACHABLE TOWING HITCH

Evenly distributes the pulling and braking forces of towing to minimise the risk of stress damage to your car. It has a vertically detachable hook and a bespoke wiring kit.

CROSS BARS*

For use with your car's pre-fitted roof rails. The cross bars lock onto the rails and form a secure base for carrying a wide range of specialised attachments.

CROSS BARS STORAGE BAG

Protection for your Lexus cross bars against dust and accidental scrapes when they have been removed from the car for storage.

HORIZONTAL CARGO NET

Noise caused by a bag or case sliding in the luggage area can be a distraction to safe driving. This horizontal net solves the problem by holding everything firmly in place.

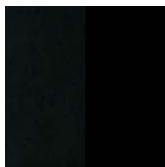

VERTICAL CARGO NET

So simple in concept and yet reassuringly practical. The net clips onto pre-fitted hooks in the luggage area and is ideal for keeping smaller items tidy yet accessible.

* Not compatible with the panoramic roof.

¹ Figures for the RX 450h differ by grade and wheel size. 1st figure is for the RX 450h Eco grade with 18" alloy wheels. 2nd figure is for Comfort grade with 18" alloy wheels. 3rd figure is for Executive, F SPORT and Luxury grades with standard specification 20" alloy wheels and for Comfort grade with optional 20" alloy wheels.

² 1st figure is for the RX 450h Eco grade. 2nd figure is for all other RX 450h grades.

* The fuel consumption and CO₂ values are measured in a controlled environment, in accordance with the requirements of Directive 80/1268/EEC incl. its amendments, on a vehicle with European Standard equipment. For further information, or if you are interested in purchasing a vehicle with European Standard equipment, please contact your Lexus Authorised Importer. The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, installed equipment, load, number of passengers, etc) play a role in determining a car's fuel consumption and CO₂ emissions.

Please note: the dimensions illustrated / noted are measured in millimetres.

THE NEW RX 450h

LEXUS CARE

**AT LEXUS,
WE CARE**

OMOTENASHI
BY LEXUS

**AT LEXUS WE SEE YOU
MORE AS A GUEST
THAN A CUSTOMER.**

Reflecting our passionate commitment to 'Omotenashi' - the Japanese spirit of hospitality that inspires our world-class customer service - at Lexus we aim to treat every customer as if they were a guest in our own home. Throughout your vehicle's life, we'll strive to ensure an amazing ownership experience, offering peerless service and seamless maintenance work, all orchestrated to provide complete satisfaction and total peace of mind.

Ever since the launch of the Lexus LS 400 flagship sedan in 1989, Lexus has always believed in going 'the extra mile' for every single customer. Evidenced by countless awards, we see caring for your car as the equivalent of caring for you.

When you visit our showrooms, we endeavour to anticipate your every need and make available the finest facilities for you to enjoy in a warm and relaxed atmosphere. In the modern Lexus lounge, you can catch up on news, browse the Internet, or enjoy refreshments. While you relax, Lexus technicians will work with precision and efficiency to get you back on the road with minimum interruption to your day.

EXPERIENCE THE NEW RX 450h

Please contact your nearest Lexus Authorised Retailer for a test drive.
