"FOR THE NEW NX WE SET OUT TO CREATE
A CROSSOVER SO SHARP AND DISTINCTIVE,
YOU'LL IMMEDIATELY WANT TO DRIVE IT."

Takeaki Kato, NX Chief Engineer

AMAZING IN MOTION

Introducing the NX, a totally new kind of Lexus. Designed to command attention, its striking angles and irresistibly bold looks bring 'Amazing In Motion' to the streets. As you'd expect from the people who developed the world's first luxury crossover, it's incredibly refined to drive, and benefits from our leadership in advanced drivetrain technology. Integrating all this experience, the new NX takes a quantum leap forward with its leading edge design, comfort and intelligent innovation. In short, we don't stop until we create amazing.

NX

THE STRIKING NEW NX

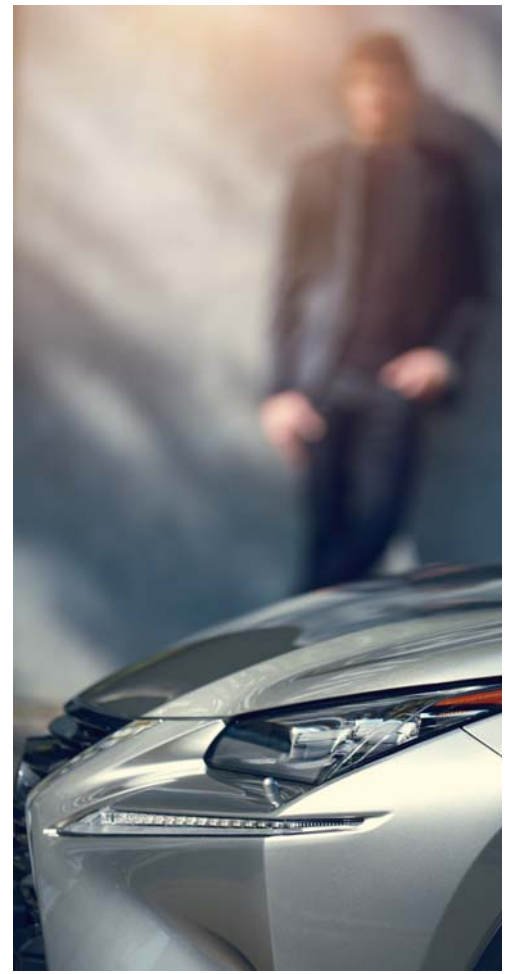
DISCOVER AMAZING URBAN DESIGN, NEXT-GENERATION HYBRID OR PETROL TURBO DRIVETRAINS AND DYNAMIC F SPORT MODELS.

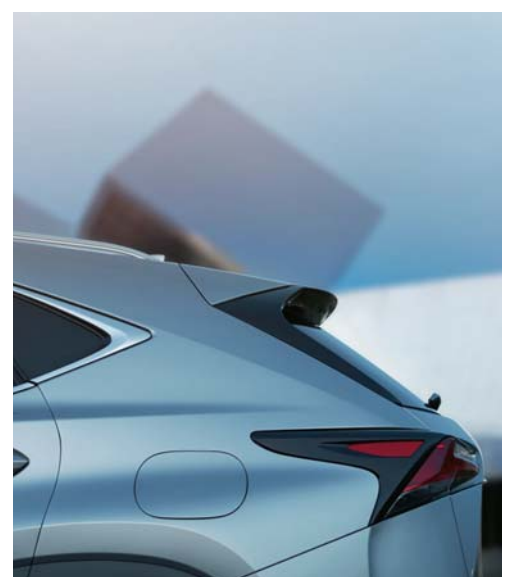
Created to stand out in the city, the all-new NX crossover offers flexible space and superb comfort for up to five people with luggage. Powered by our pioneering Full Hybrid or petrol turbo drivetrains, this breakthrough Lexus delivers highly responsive power, combined with astonishing urban agility. Intuitive Lexus technology includes Touch Pad, a Panoramic View Monitor and Pre-Crash Safety. For a more dynamic experience, the new NX F SPORT models have Adaptive Variable Suspension, 18-inch alloys, an F SPORT steering wheel and perforated leather sports seats.

F SPORT

LEXUS

NX 300h





STREET ART

THE DISTINCTIVE NEW NX DISPLAYS A WIDE STANCE, BOLD LEXUS 'SPINDLE GRILLE' AND EXQUISITE LED LIGHTS FRONT AND REAR.

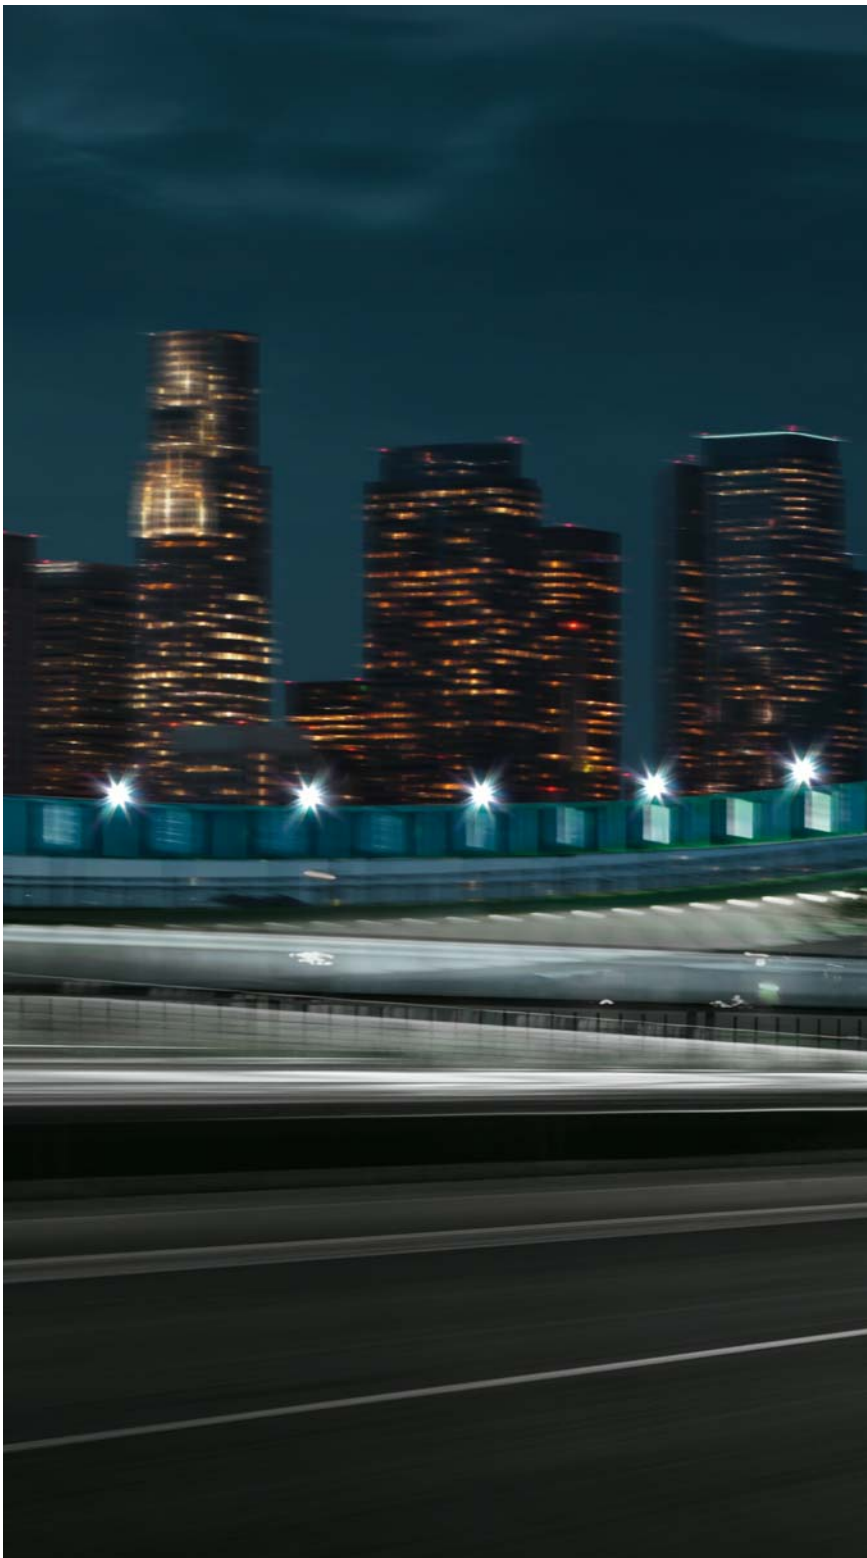
As much modern art as car, the new NX refuses to go unnoticed. To create its sharp yet fluid lines, Lexus designers drew inspiration from the intricate beauty of molten metal. Approach the NX and the door handles light up to greet you, while a further statement is made by the dynamic side 'kick-up' line and coupé-like silhouette. To the front, LED triple-projector headlights and arrowhead daytime running lights depict the unmistakable Lexus aura. To the rear, gem-like LED taillights project our 'L' emblem, underscoring the crossover's powerful shape.

NX 300h

CUTS THROUGH CONVENTION

ENJOY PRECISE URBAN HANDLING COMBINED WITH WORLD-CLASS LEXUS SMOOTHNESS AND REFINEMENT.

In a crossover that's fun to drive, and agile in the city, Drive Mode Select lets you fine-tune the performance of the NX to suit your mood, with modes ranging from ECO to SPORT S+. In heavy traffic you can switch to EV (Electric Vehicle) mode in the NX 300h, for zero emissions progress. A strong chassis and Adaptive Variable Suspension ensure smooth and precise handling, while E-FOUR or All-Wheel Drive deliver extra confidence in slippery conditions.



F SPORT

LEXUS

LEXUS
NX

INTUITIVE LUXURY

DESIGNED TO SENSE YOUR EVERY NEED, THE NX LETS YOU DRIVE IN ABSOLUTE COMFORT.

In the new NX you'll discover intuitive technology that makes your life simpler: an intelligent overhead lamp that senses your fingertip so you don't search in the dark, and a tailgate that remembers how far you usually open it. Beautifully finished by 'Takumi' master craftspeople, the interior features a 'spindle grille' inspired centre console, while an analogue timepiece and ambient lighting enhance refinement. Extremely comfortable, the 8-way powered front leather seats can be heated or ventilated, and the 60:40 rear seats fold electrically to make room for skis or surfboards.

URBAN POINT OF VIEW

RELAX IN SUMPTUOUS LEATHER SEATS WITH S-FLOW CLIMATE CONTROL, WHILE A PANORAMIC VIEW MONITOR GIVES EXTRA CONFIDENCE IN THE CITY.

Seated well above most other traffic, you'll enjoy a great view of the city, relaxing in the NX's beautifully finished leather seats. Enhancing cabin freshness in all weather conditions, S-Flow air conditioning only controls the climate of the seats that are occupied, while in ECO mode electric seat heaters warm you more efficiently on cold mornings. For easy manoeuvring, the Panoramic View Monitor provides images from four discreet cameras. These are located on the front grille, door mirrors (the cameras even work when the mirrors are folded in) and tailgate – with on-screen digital guides for trouble-free driving in a confined urban environment.

CONNECTED TO THE CITY

TOUCH PAD ACCESS TO NAVIGATION AND CONNECTED SERVICES, WIRELESS CHARGER.

No matter how busy your life, you'll stay informed and up-to-date in the new NX – with innovative technologies like a wireless charger that tops up your mobile's battery when placed in the console box. Or the intuitive Touch Pad that provides seamless access to Lexus Premium Navigation and Connected Services. The latter has features like Online Search, Google Street View®, Panoramio® or Connected Traffic. Alternatively, simply wind down listening to your favourite music on the peerless Mark Levinson® Premium Surround system.

THE POWER OF h

LEXUS HYBRID DRIVE DELIVERS 197 DIN hp OF REFINED POWER, WITH CO_2 EMISSIONS OF JUST 116 g/km*.

Equipped with our latest Lexus Hybrid Drive – that seamlessly orchestrates power from a 2.5-litre petrol engine and electric motor(s) – the NX 300h is incredibly smooth and quiet, yet is as easy to drive as a conventional luxury car. Delivering lively performance, it consumes a mere 5.0 l/100 km* of fuel, which is amazing for a crossover of this size. Regenerative braking means no battery recharging is required and, thanks to our leadership in hybrid technology, the NX 300h will have very low running costs. To learn more, please visit: www.lexus.eu/hybrid

* For the NX 300h FWD Eco grade.

NX 300h

NX 200t

DISCOVER THE FUN OF TURBOCHARGED POWER AND PADDLE SHIFT CONTROL.

Powered by a brand new 2.0-litre petrol engine – delivering 238 DIN hp of turbo-charged fun – the dynamic new NX 200t gives an immense boost to your crossover enjoyment. Featuring distinctive twin aluminium exhaust tips – inspired by those on high-end motorcycles – the new NX 200t offers rapid acceleration, confident motorway performance and Lexus refinement. Fitted with electronically-controlled All-Wheel Drive, paddle shifts give you direct control via a highly responsive 6-speed automatic transmission.

NX 200t
LEXUS
NX200t

SCULPTED TO STAND OUT

THE NEW NX F SPORT IS TUNED FOR DYNAMIC PERFORMANCE, WHILE A G-SENSOR ENHANCES YOUR DRIVING EXPERIENCE.

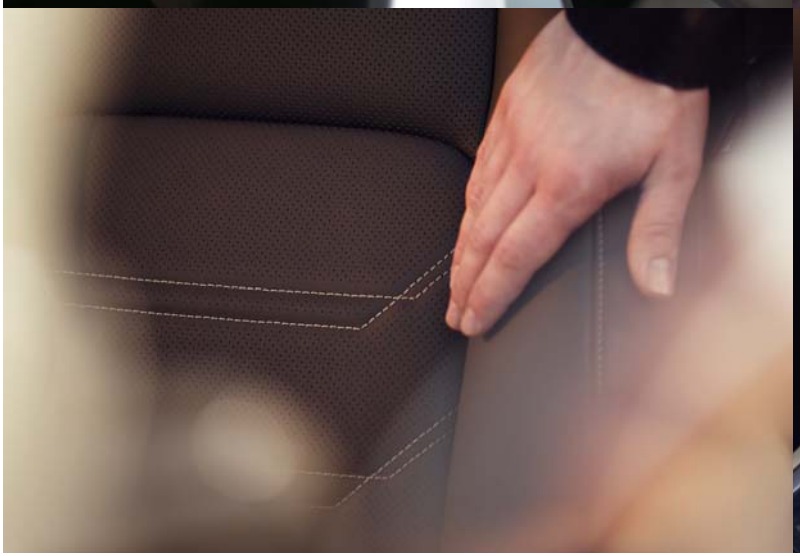
For maximum driving enjoyment, the daring new NX F SPORT is equipped with exclusive performance features and aggressive sports styling. Outside, the 18" alloys, F SPORT grille and front spoiler lip attract even more attention. Inside, driving enthusiasts will enjoy a perforated F SPORT leather steering wheel, 'boost meter' on the NX 200t displaying turbo performance, and highly supportive leather sports seats built using 'integrated foaming' technology. Aluminium pedals and carbon-look inlays complete the sports interior. With Adaptive Variable Suspension adjustable for extra responsiveness, the NX F SPORT delivers a smooth yet dynamic crossover experience.

SHARP SIGHTED

HEAD-UP DISPLAY, PRE-CRASH SAFETY TECHNOLOGY, 5-STAR EURO NCAP PROTECTION.

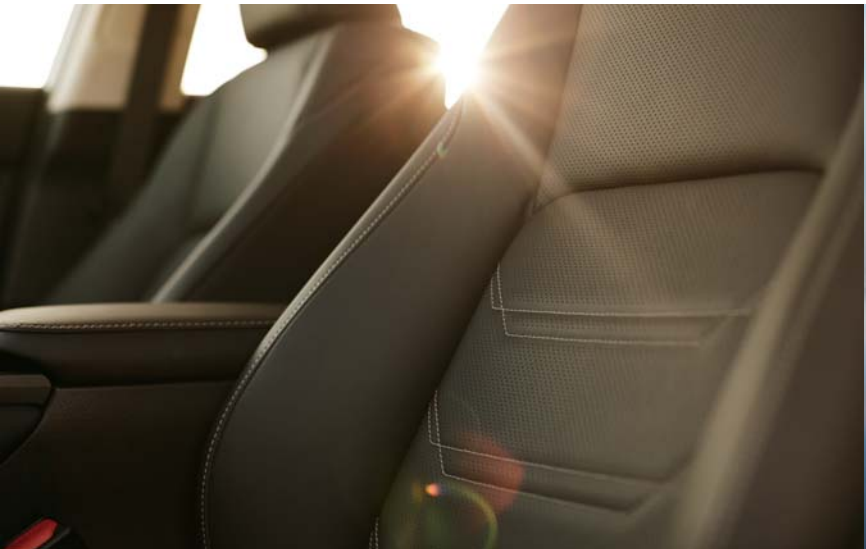
The new NX is engineered to reduce driver fatigue. An extra-wide colour Head-Up Display projected on the windscreen helps you concentrate on the road ahead; Lane Keeping Assist stops you drifting out of lane and Automatic High Beam switches to low beam when required. To help avoid danger, Pre-Crash Safety uses millimetre-wave radar technology to detect objects ahead – applying the brakes and tightening seatbelts if appropriate. Finally, should you ever be involved in a collision, you and your passengers are protected by a strong safety cell and eight airbags.

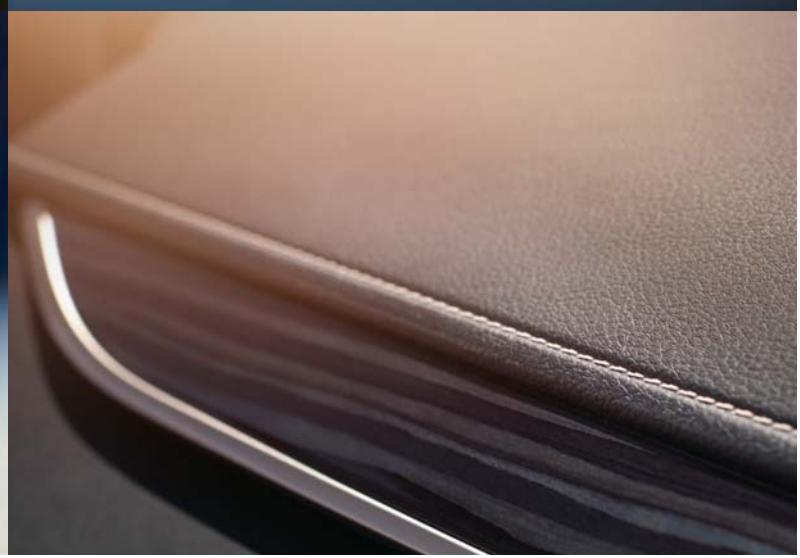
LEXUS



TAKUMI CRAFTSMANSHIP

WITH PRODUCTION OVERSEEN BY TAKUMI MASTER CRAFTSPEOPLE, EVERY NX UNDERGOES A 'TYPHOON TEST' BEFORE DELIVERY.





With its 'shimamoku' hand-finished wood inserts and beautifully stitched leatherwork, the new NX resets benchmarks for this kind of crossover. Manufactured at our Kyushu plant in dust-free clean room conditions, paint shop employees go through two vacuum chambers to remove particles from their special suits and hair. A water screen – nicknamed Niagara – reduces dust even further. Gleaming paintwork is produced by hand sanding each foundation coat (a time-consuming process normally reserved for coach-built cars). Finally, before delivery, every NX crossover undergoes a 30 km test drive.

FRESH THINKING

POWERED BY A HIGHLY EFFICIENT LEXUS HYBRID DRIVETRAIN, THE NX FEATURES ENERGY SAVING LED LIGHTS AND ECO ROUTE PLANNER.

Equipped with the latest Lexus Hybrid Drive – from the pioneers and leaders in this technology – at the end of its life, up to 85% of the NX can be recycled. Also, an innovative Lexus process ensures that 95% of the battery can be reprocessed. No harmful substances (like lead, mercury or cadmium) are used during manufacture. And production at the Kyushu 'Eco Plant' is organised using our world-famous lean manufacturing techniques, with waste being kept to an absolute minimum.

FULL HYBRID TECHNOLOGY

In 2004, Lexus became the first premium carmaker to perfect Full Hybrid technology. A decade later, over 750,000 Lexus hybrid models have been sold and we remain the leader in this field. The NX 300h's second-generation Lexus Hybrid Drive delivers refined power with outstanding fuel efficiency and exceptionally low emissions – zero when in EV (Electric Vehicle) mode.
To learn more, please visit: www.lexus.eu/hybrid

2.5-LITRE PETROL ENGINE

A highly efficient 155 DIN hp 'Atkinson Cycle' 4-cylinder petrol engine, with VVT-i valve control and optimised electronic fuel injection, forms the heart of the NX 300h's Full Hybrid powertrain. Start/Stop technology and exhaust heat recycling help reduce fuel consumption and emissions even further.

LEXUS HYBRID DRIVE

No larger than a conventional automatic transmission, Lexus Hybrid Drive's front electric motor, generator and power split mechanism are all housed in one highly compact hybrid transmission. Energy flows are managed by an advanced Power Control Unit that constantly optimises the allocation of power – electric, petrol or a combination of both.

HYBRID BATTERY

Featuring an innovative new split design, and located under the rear seat so as not to encroach on the NX 300h's large luggage space, the hybrid battery provides high power output in relation to its weight. The NX 300h recharges its hybrid battery as required – using electricity generated when driving and braking – thus avoiding the need for any external charging.

EV (ELECTRIC VEHICLE) MODE

With sufficient battery charge, EV mode lets you drive at lower speeds over shorter distances using just electric power. EV mode is near silent, emissions-free and consumes no fuel. This is ideal, for instance, when driving in heavy city traffic or enclosed car parks.

REGENERATIVE BRAKING

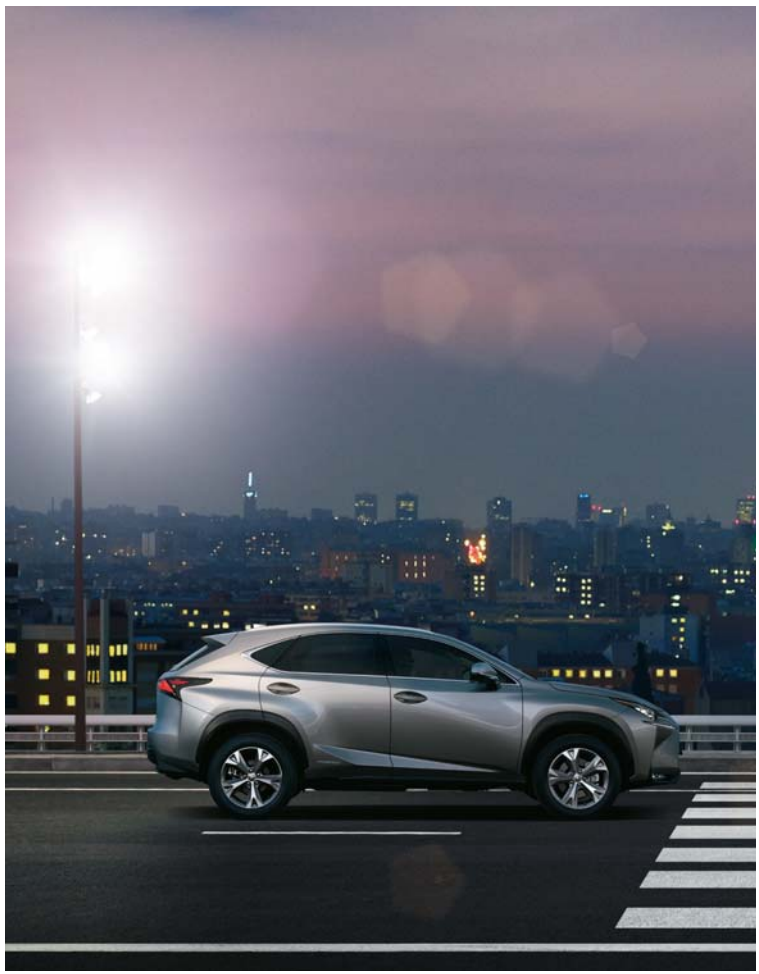
When braking or decelerating, the front and rear wheels drive the high-output electric motors so that they function as generators. Kinetic energy – which would otherwise be lost as heat – is then captured and converted into electric power. This is stored in the hybrid battery for later use.

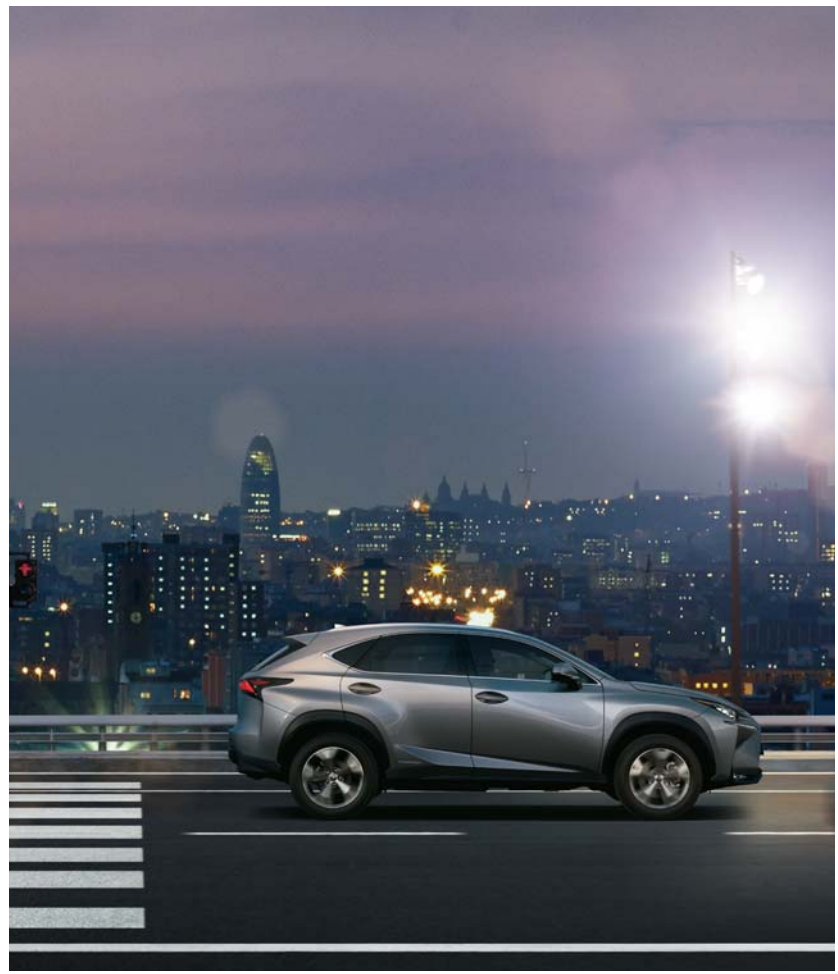
FULL HYBRID PERFORMANCE

The new NX 300h delivers 197 DIN hp of super smooth power. Amazingly, the combined CO_2 emissions of this powerful crossover are just 116 g/km* and fuel consumption is 5.0 l/100 km*.

* For the NX 300h FWD Eco grade.

EXPERIENCE LEXUS HYBRID DRIVE





START UP, DRIVING OFF

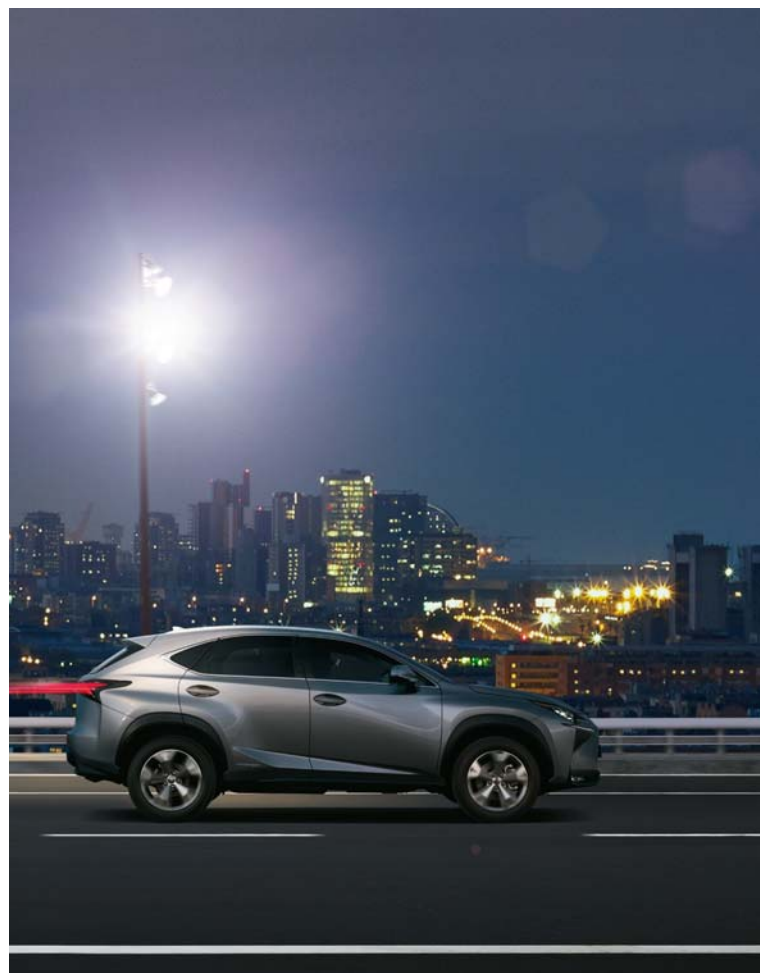
When starting off, the powerful front and rear electric motors can swiftly propel the NX 300h up to 65 km/h, with electric power supplied by the hybrid battery. At this point the vehicle is almost silent, uses no petrol and produces zero emissions.

NORMAL DRIVING CONDITIONS

At speeds above 65 km/h the ultra-smooth Atkinson Cycle petrol engine cuts in, almost silently, while still receiving assistance from the electric motors when required. Through the near perfect distribution of its petrol and electric power sources, the NX 300h provides extraordinary driving enjoyment – together with low emissions and modest fuel consumption.

FULL THROTTLE ACCELERATION

Accelerate powerfully and the combined power of the electric motors instantaneously supplements the 2.5-litre petrol engine. Together they deliver a potent surge of torque to provide breathtakingly fast linear acceleration precisely when you need it.



DECELERATION, STOPPING, BRAKING

When decelerating or coming to a halt, the petrol engine turns off, cutting emissions to zero. Brake, or take your foot off the accelerator, and regenerative braking harnesses the kinetic energy lost in other cars. It converts this into electrical energy for storage in the hybrid battery, which is one reason why you never need to recharge a Lexus Full Hybrid.

INNOVATIVE ENGINEERING

The NX crossover range offers an amazing new petrol turbo drivetrain in the NX 200t. The engine underwent a gruelling development programme that included over one million miles of test driving in the most extreme conditions.

2.0-LITRE TURBO ENGINE

Featuring a breakthrough combination of water-cooled cylinder head, integrated exhaust manifold and twin scroll turbo charger, this all-new Lexus 2.0-litre turbo engine delivers fast throttle response, exhilarating performance and high torque at low engine revs. For enhanced fuel economy, innovative valve timing allows the engine to switch between the Otto and Atkinson cycles. Tested in extremely harsh conditions – including weeks of mountain pass driving at 3,000 m in over 50°C of heat – this new engine delivers a maximum output of 175 kW (238 DIN hp) with a maximum torque of 350 Nm.

TWIN ALUMINIUM EXHAUST TIPS
Inspired by the exquisitely crafted tail pipes of high-end motorcycles, the NX design team created a stunning aluminium exhaust pipe for the NX 200t. It delivers the refined sound of the high-performance turbo powerplant with unique style and sophistication.

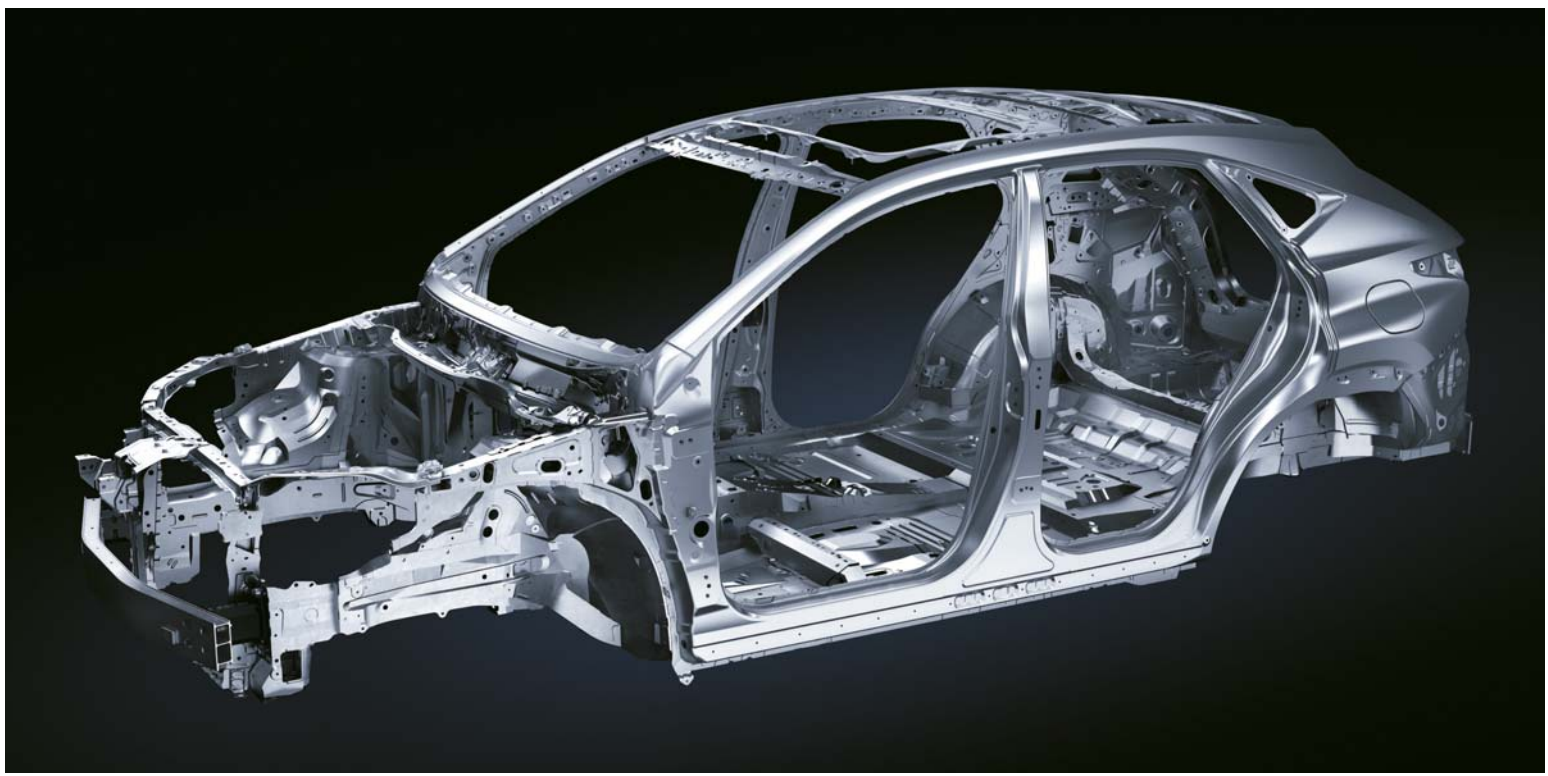
6-SPEED AUTOMATIC TRANSMISSION
The NX 200t's new 6-speed automatic transmission is designed to deliver maximum power from the turbo engine. Thanks to its new torque-demand control logic, the system optimises the required engine torque at any moment, ensuring quick throttle response and high fuel efficiency.

D-4S
Depending on the driving situation, this advanced injection system distributes the fuel load between the higher-pressure direct injectors in the cylinder, and the lower pressure port injectors. Delivering optimum combustion at all times, D-4S ensures enhanced fuel economy and excellent low-speed torque.

TURBOCHARGER
This highly efficient new twin scroll turbocharger has been engineered to produce high torque right through the rev range. The shape of the turbine blades has been optimised, and the friction in the bearing mechanism reduced, creating a compact high-efficiency turbocharger with incredibly responsive performance.

DYNAMIC PERFORMANCE

To ensure precise and enjoyable performance on all types of road, the new NX was first tested and refined in the world's most advanced driving simulator and then driven over many hundreds of thousands of kilometres in the toughest Arctic and desert conditions.



EXTREMELY STRONG CHASSIS, ADAPTIVE VARIABLE SUSPENSION

With its all-new chassis, suspension and steering, the NX is incredibly smooth and refined to drive. Advanced laser screw welding and adhesive bonding techniques make the NX extremely rigid. This has produced a crossover of great strength, which rewards drivers with superior handling characteristics. Equipped with compact MacPherson strut front suspension and sophisticated double wishbone rear suspension, the NX delivers outstanding road holding, sedan-like cornering characteristics and superb straight-line stability. For a more engaging drive, optional Adaptive Variable Suspension intelligently controls the damping force on all four wheels. This not only improves ride comfort, but also increases handling stability.

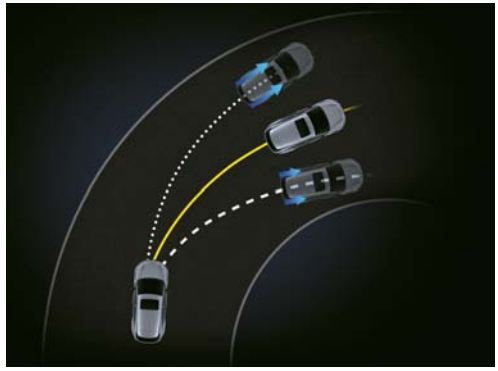
ADVANCED AERODYNAMICS
The NX has excellent aerodynamics, thanks to a near-flat underbody and large rear spoiler. To reduce the overall drag coefficient, Lexus engineers also redesigned the door mirrors. These measures not only enhance stability and handling, they also improve fuel efficiency and reduce wind noise.

DRIVE MODE SELECT
Located on the centre console, next to the gearshift, Drive Mode Select allows drivers to choose between ECO, NORMAL, SPORT S and SPORT S+ modes, for maximising the car's efficiency, dynamism or refinement.

E-FOUR
On NX 300h All-Wheel Drive models, E-FOUR delivers seamless performance and confident traction over rougher terrain. The innovative E-FOUR drivetrain features the addition of a 68 DIN hp electric motor mounted on the rear axle, which delivers instant torque on demand.

HILL-START ASSIST CONTROL
Hill-start Assist Control maintains brake pressure to help prevent the NX from moving backwards when starting off on a slope. Hill-start Assist Control also minimises wheel-spin on slippery inclines.

TRACTION CONTROL
Traction Control increases the NX's ability to grip, especially when starting off or accelerating on uneven or slippery surfaces. Corrective measures are applied the moment the risk of wheel-spin is detected, thereby maintaining traction.



VEHICLE STABILITY CONTROL
Vehicle Stability Control helps prevent the loss of vehicle control, particularly when cornering quickly or at the onset of a skid. Stability is improved and vehicle speed lessened by the selective application of brakes and, or, power reduction.

ADVANCED SAFETY

The new NX crossover has an incredibly strong passenger safety cell and eight airbags, that delivered a 5-star result in Euro NCAP testing. It is also available with advanced Pre-Crash Safety technology. Pioneering driver support systems include Automatic High Beam, Lane Keeping Assist, Blind Spot Monitor and Rear Cross Traffic Alert.

WHIPLASH INJURY LESSENING SEATS

The front seats are designed to minimise whiplash inducing neck motion in a rear impact. Reinforced seat frames allow the torso to sink into the seatback, while the placement of the headrest supports the head more effectively.

EIGHT AIRBAGS

In addition to an immensely strong passenger safety cell, occupant security is provided by eight airbags. The driver and front passenger are protected by 2-stage head airbags and side airbags. Additionally, in a frontal collision, while a knee airbag protects the driver, a seat cushion airbag prevents the front passenger from slipping forward under the seatbelt, significantly reducing the chance of injury. Curtain shield airbags run the full length of both cabin sides. All seatbelts, except for the centre rear seat, are also specified with pre-tensioners. This exceptional level of safety protection is provided as standard in the new NX.

PRE-CRASH SAFETY

Millimetre-wave radar and an on-board computer calculate collision risk ahead. If the risk is high, the driver is alerted by audible and visual warnings and brake pressure is increased. When a collision is deemed unavoidable, the brakes will be applied automatically as necessary and the front seatbelts tightened.

LANE KEEPING ASSIST

This innovative technology helps prevent the driver from inadvertently drifting out of lane, by way of a warning and the automatic application of a brief corrective steering force.

BLIND SPOT MONITOR

Radar devices mounted in the rear bumper detect vehicles in adjacent lanes that are not visible in the door mirrors. If the driver is indicating to change lane, and a vehicle enters the blind spot, the Blind Spot Monitor instantly activates a warning signal in the relevant door mirror.

ADAPTIVE CRUISE CONTROL

To help reduce driver fatigue, Adaptive Cruise Control (ACC) maintains a set distance between the NX and the vehicle ahead, even if that vehicle varies its speed or comes to a complete stop. Once the road is clear, ACC automatically returns to the originally specified cruising speed.

AUTOMATIC HIGH BEAM

At night, Automatic High Beam uses a camera mounted behind the rear-view mirror to automatically switch to low beam when it detects the lights of either an oncoming or preceding vehicle. This reduces the chance of accidentally dazzling other drivers should you forget to switch off the high beam headlights.

REAR CROSS TRAFFIC ALERT

When reversing, for instance in a busy car park, the Rear Cross Traffic Alert (RCTA) function uses the Blind Spot Monitor radar to detect vehicles approaching the difficult-to-see area behind the vehicle. When a vehicle is detected, the RCTA function alerts you with a visual display in the door mirrors and a buzzer.

EURO NCAP 5-STAR RATING

Providing an independent and realistic assessment of safety performance, the new NX crossover has been awarded a maximum 5-star rating in prestigious 2014 Euro NCAP tests. Scores for all areas were well above the minimum required to achieve five stars, with maximum points scored in the side barrier impact test, placing the NX amongst the very safest vehicles in its segment.

Available as an option, part of a pack or standard on specific grade(s).

EXTERIOR FEATURES

LED LOW BEAM / ECO DRL
Available on the NX 300h, LED low beam and halogen high beam headlights combine with energy saving Daytime Running Lights (DRL) on the Eco grade. Designed in the signature Lexus L shape, these DRLs ensure optimum environmental performance.

LED LOW BEAM / FULL DRL
Fitted standard on Comfort, Business and Executive grades, in addition to LED / halogen headlights, these higher grades benefit from full LED illumination of the L-shaped Daytime Running Lights.

17" ALLOY WHEELS
Only available on the NX 300h – and fitted as standard on the Eco grade – these 10-spoke deep gloss wheels are equipped with 225/65 R17 tyres for low running resistance and excellent functionality.

18" ALLOY WHEELS
Standard on Comfort, Business and Executive grades, this intricate u-shaped spoke design creates a sharp and radical profile, while 225/60 R18 tyres complete the bold sports look.

18" ALLOY WHEELS
This dramatically styled wide-spoke design gives your NX a feeling of sophisticated sportiness.

TRIPLE LED 'L' BEAMS / FULL DRL

Jewel-like, triple 'L' LED headlights use the same light source for high and low beam. Specified exclusively on F SPORT and Luxury models, the NX's impressive aura is enhanced by L-shaped thick-wall full LED DRLs.

LED REAR LIGHTS

The rear light cluster combines elegant LEDs arranged in Lexus signature 'L' form, with no visible gap for the tailgate. Thick-wall moulding technology gives a crystal appearance, and a strikingly bold presence when not illuminated.

LED FOG LIGHTS

LED front fog lights – with an innovative new cornering light function – juxtapose with the spindle grille and LED daytime running lights. They also help reduce overall energy consumption.

17" WINTER ALLOY WHEELS

Lexus winter alloy wheels are purpose designed to equip your NX for poor road conditions and low temperature driving while maintaining a prestige appearance.

18" ALLOY WHEELS

The black mirror chrome finish and high performance 10-spoke design create an unmistakable look of urban sophistication.

ADVANCED DOOR MIRRORS

Designed to reduce wind noise, heated door mirrors incorporate an indicator, Blind Spot Monitor and Panoramic View Monitor camera. Electro chromatic technology reduces dazzle at night, and the mirrors fold electrically for negotiating narrow spaces.

Available as an option, part of a pack or standard on specific grade(s).
Available as an accessory.

EXTERIOR FEATURES

WELCOME ILLUMINATION

As you approach the NX with the key in your pocket or bag, ambient and puddle lights illuminate to welcome you, and help you avoid obstacles in the dark.

PANORAMIC ROOF

This large glass, factory-fitted panoramic roof adds a feeling of freedom, extra headroom and sunshine to the NX cabin. The panoramic roof is fitted with an electric sliding blind to shade you should the sun become too intense.

POWER TAILGATE

A remote controlled tailgate ensures convenience, especially when your arms are full of shopping. It also remembers how far you usually open it and automatically stops at this point.

PRIVACY GLASS

The rear side windows and tailgate window are treated with a reflective tint, which provides passengers with extra privacy. This does not, however, restrict the view from inside the NX to the world outside.

ALUMINIUM ROOF RAILS

Extruded aluminium roof rails are available on the NX. Enhancing the crossover's overall look, they offer sports functionality for transporting skis, bikes or surfboards.

SUNROOF

An electric, tilt and slide, glass sunroof adds a feeling of freedom, spaciousness and light to the NX.

SIDE DOOR GARNISH

A bold dash of chrome along the lower side contours emphasises the NX's amazing urban styling.

FRONT SKIRT

Designed to enhance your crossover's look of power and individuality, the front skirt integrates with, and complements, the NX's front bumper.

REAR SKIRT

With its wrap-around styling, the Lexus rear skirt extends the depth of the NX's rear bumper to establish a dynamic, low profile, sporty appearance.

REAR CHROME GARNISH

Subtle, yet decidedly stylish, the rear chrome garnish makes a statement by highlighting your NX's strong rear-end design.

REAR BUMPER PROTECTION PLATE

Style and practicality combined, this stainless steel plate protects bumper paintwork against scratching when loading or unloading luggage.

■ Available as an option, part of a pack or standard on specific grade(s).
○ Available as an accessory.

INTERIOR FEATURES

LEATHER STEERING WHEEL

A beautifully crafted leather steering wheel features finger rests and a cross-section optimised to fit comfortably in your hands. Integrated switches control – where specified – audio, telephone, multi-information display, ACC and Lane Keeping Assist.

HEATED STEERING WHEEL

For added comfort in colder conditions, the steering wheel can be heated on higher grades. The steering wheel heater is activated by a switch and turns off automatically after a pre-set time.

FRONT SEATS

Sumptuous front seats make use of the 'integrated foaming' production process, first introduced on F SPORT models. This motorsport-inspired technology allows greater comfort and lateral support than is possible with conventional upholstery methods.

ERGONOMIC DESIGN

Seat cushion shape and firmness have been optimised to reduce pressure on the sensitive ischial region. For extra comfort, long reach seat adjustments also accommodate larger physiques.

HEATED / VENTILATED SEATS

In combination with leather upholstery, the driver and front passenger can heat or ventilate their seats. This adds to the sense of luxury, especially in extreme weather conditions.

SEAT ADJUSTMENT

In addition to excellent front and rear leg room, both front seats are electrically adjustable in eight directions for even more comfort, while lumbar support and memory settings are available.

S-FLOW CLIMATE CONTROL

Powerful, dual-zone air conditioning is also highly energy efficient thanks to S-Flow which intelligently provides climate control only to occupied seats.

■ SMART ENTRY

Approach the NX with the key in your pocket and all four door handles gently illuminate to greet you, unlocking when touched. Beautifully sculpted, they have no keyhole, a world-first for this kind of door handle.

○ ILLUMINATED SCUFF PLATES

Lexus scuff plates add a stylish design feature while also protecting the door sill paintwork. Their brushed aluminium finish is highlighted by subtle logo illumination.

INTELLIGENT CABIN LIGHTING

Underlining our philosophy of 'seamless anticipation', to avoid you having to fumble in the dark, the intelligent overhead cabin light senses your fingertip and switches on automatically.

FLEXIBLE SPACE

A practical 60:40 split folding rear seat comes standard on all NX models, which allows easy stowage of larger items like a racing bike or surfboard. With all rear seats folded down there is room to carry bulky objects.

■ ELECTRIC REAR SEATS

You can also upgrade to a fully electric folding mechanism, which is operated via a number of conveniently located controls. And rear seat passengers can also partially recline their backrests for added comfort.

SMART CONSOLE BOX

Inspired by traditional Japanese wooden boxes, a small lined container on the centre console is perfect for storing small items like tickets and coins. The underside of the detachable lid functions as a vanity mirror.

ELECTRIC PARKING BRAKE

For added convenience and safety, the Electric Parking Brake switch is located on the centre console (close to the gearshift and Drive Mode Select) in order to improve usability.

■ Available as an option, part of a pack or standard on specific grade(s).
○ Available as an accessory.

AUDIO AND MULTIMEDIA

LEXUS MEDIA DISPLAY

The NX is available with Lexus Media Display, which features a 7-inch screen and a rotary dial to adjust audio, climate settings or view the energy monitor. Compatible smartphones can be 'mirror linked' to the display.

LEXUS HOTSPOT

Lexus Hotspot turns your NX into a mobile WiFi hotspot. When in a 2G/3G area, it enables connection for up to five devices such as tablets, phones and laptops and supports in-car interaction between them. The system uses a SIM card of your choice and wires into the crossover's electrics for constant power.

LEXUS NAVIGATION

The NX can be specified with Lexus Navigation. This works via the centrally positioned Lexus Media Display. It is fast, user-friendly and offers a great variety of mapping options.

PARKING ASSIST MONITOR

Engage reverse and the view behind the car is relayed to the Lexus Media Display. With the upgraded Lexus Premium Navigation specified, on-screen guides are additionally displayed to assist parking.

PANORAMIC VIEW MONITOR

For easier driving in confined spaces, four cameras provide a near-360° view around the entire vehicle. A Lexus first, Panoramic View Monitor also creates a virtual 3D view of your NX, with on-screen guides to assist close-quarter manoeuvring in the city.

COLOUR HEAD-UP DISPLAY

Vehicle data is projected in colour directly onto the windscreen. This extra-wide 6.2" Head-Up Display lets you check data like navigation commands or audio settings without taking your eyes off the road ahead.

■ Available as an option, part of a pack or standard on specific grade(s).
○ Available as an accessory.

LEADING EDGE MULTIMEDIA

With the new NX, you have the option to specify the very latest multimedia technology. This features Lexus Premium Navigation and Lexus Connected Services like Google Street View®. It can even help you calculate the most ecological route.

TOUCH PAD

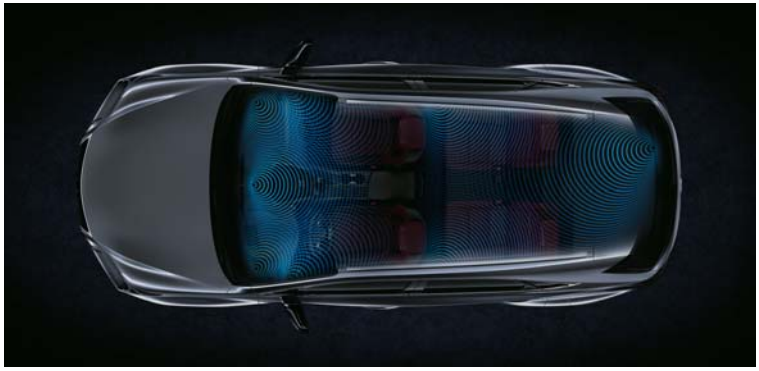
Another Lexus first, Touch Pad with Remote Touch Interface lets front seat occupants interact intuitively with the central 7-inch multimedia display. Ergonomically designed, it is as easy to use as a smartphone or tablet.

LEXUS PREMIUM NAVIGATION

With vivid 3D graphics and many mapping options, the 7-inch screen is operated by Touch Pad or voice commands. The system can even generate a QR code for your smartphone, to help you reach your final destination on foot.

LEXUS CONNECTED SERVICES

The new NX offers services like Online Search, Google Street View®, Panoramio® or Connected Traffic. For extra convenience you can even forward a route from your laptop or tablet to the NX's navigation system.



8 OR 10-SPEAKER PIONEER® AUDIO

An 8-speaker Pioneer® audio system is fitted as standard. This features an AM/FM RDS tuner, CD player and Bluetooth® connectivity. The 10-speaker upgrade has a DAB tuner and DVD player and offers greater fidelity with 16 cm speakers in the front doors.

MARK LEVINSON®

The 14-speaker Mark Levinson® Premium Surround system with GreenEdge™ technology is tailored to the acoustic properties of the NX. It delivers a peerless 7.1-channel digital home-theatre experience enhanced by Clari-Fi™ that rebuilds sound lost in MP3 digital compression.

WIRELESS CHARGER

Charge compatible smartphones or other electronic devices using the inductive wireless battery charger, conveniently positioned in the NX's centre console box.

F SPORT

Tuned by the team that developed the LFA supercar and RC F high performance coupé, the new NX 300h F SPORT and NX 200t F SPORT carry the spirit of these two amazing Lexus cars. Exclusively designed – with sports-tuned suspension and performance dampers as standard – they can also be specified with the option of Adaptive Variable Suspension and SPORT S+ mode for more engaging performance.

F SPORT BADGE
Although discreet, the F SPORT logo is a badge of great distinction. The 'F' refers to the birthplace and primary testing site of our high-performance F SPORT cars: Fuji Speedway, located near Mount Fuji.

18" F SPORT ALLOYS
Exclusive to F SPORT, with a dark metallic finish, these highly distinctive 5-twin-spoke alloy wheels underline the vehicle's dynamic character.

F SPORT DESIGN
The new NX F SPORT is unmistakably dynamic, with a bold and distinctive front spindle grille featuring special 'L-mesh' inserts. The lower front spoiler features an aerodynamic lip for increased down-force, and a large lower grille opening.

BLACK MIRROR HOUSING
Destined to attract great attention, the new NX F SPORT has black door mirror housings. These contrast with the F SPORT styling and underline the dynamic intentions of this striking new crossover.

■ **18" F SPORT ALLOYS**
For an exciting new F SPORT look, these alloy wheels contrast black gloss highlights with machined spoke detail.

■ Available as an option, part of a pack or standard on specific grade(s).

‘DARK ROSE’ LEATHER UPHOLSTERY

Vibrant ‘Dark Rose’ leather upholstery (with a black roof lining) is the signature interior colour on the NX F SPORT. Exclusive new F SPORT seats feature ‘integrated foaming’ technology for added support while cornering. Silver coloured, carbon-look inlays perfectly complement the drilled sport pedals, scuff plates and other F SPORT interior trim elements. Precise ‘dual-red’ stitching gives an extra dynamic look to the seats, dashboard and gearshift.

F SPORT STEERING WHEEL

Featuring the F SPORT logo, this beautifully crafted steering wheel was inspired by that of our iconic LFA supercar. Finished in perforated leather, the F SPORT gearshift design matches the steering wheel to create an exciting sports look.

G-SENSOR

For a more engaging drive, a new G-Sensor displays the NX F SPORT’s lateral and longitudinal G-forces in the multi-information display. The screen also displays the steering angle, throttle position, and hydraulic brake pressure.

BOOST METER

The NX 200t F SPORT features a boost meter that tracks the dynamic performance of the engine’s turbo. The display also shows the temperature and oil pressure data.

DRILLED SPORT PEDALS

Offering excellent grip characteristics, drilled aluminium pedals reflect the motorsport design heritage of the new NX F SPORT models.

TECHNICAL DATA

	NX 300h AWD (FWD)	NX 200t AWD (FWD)

Rear seats down, loaded to roof	1520 / 1600[5]	1545 / 1625[5]

[1] Figures vary by grade and alloy wheel size. The first figure is for the NX 300h AWD Comfort grade specified with 17" alloy wheels to achieve a lower CO_2 and fuel consumption figure compared to the standard fitment 18" alloy wheels for this grade. The second figure is for the NX 300h AWD Comfort, Business, Executive and Luxury grades specified as standard with 18" alloy wheels. The third figure is for the NX 300h AWD F SPORT grade specified as standard with 18" alloy wheels.

[2] Figures vary by grade and alloy wheel size. The lowest figure is for the NX 300h FWD Eco grade specified with 17" alloy wheels. The middle figure is for the NX 300h FWD Comfort grade specified with the optional 17" alloy wheels to achieve a lower CO_2 and fuel consumption figure compared to the standard fitment 18" alloy wheels for this grade. The highest figure is for the NX 300h FWD Comfort, Business and Executive grades specified as standard with 18" alloy wheels.

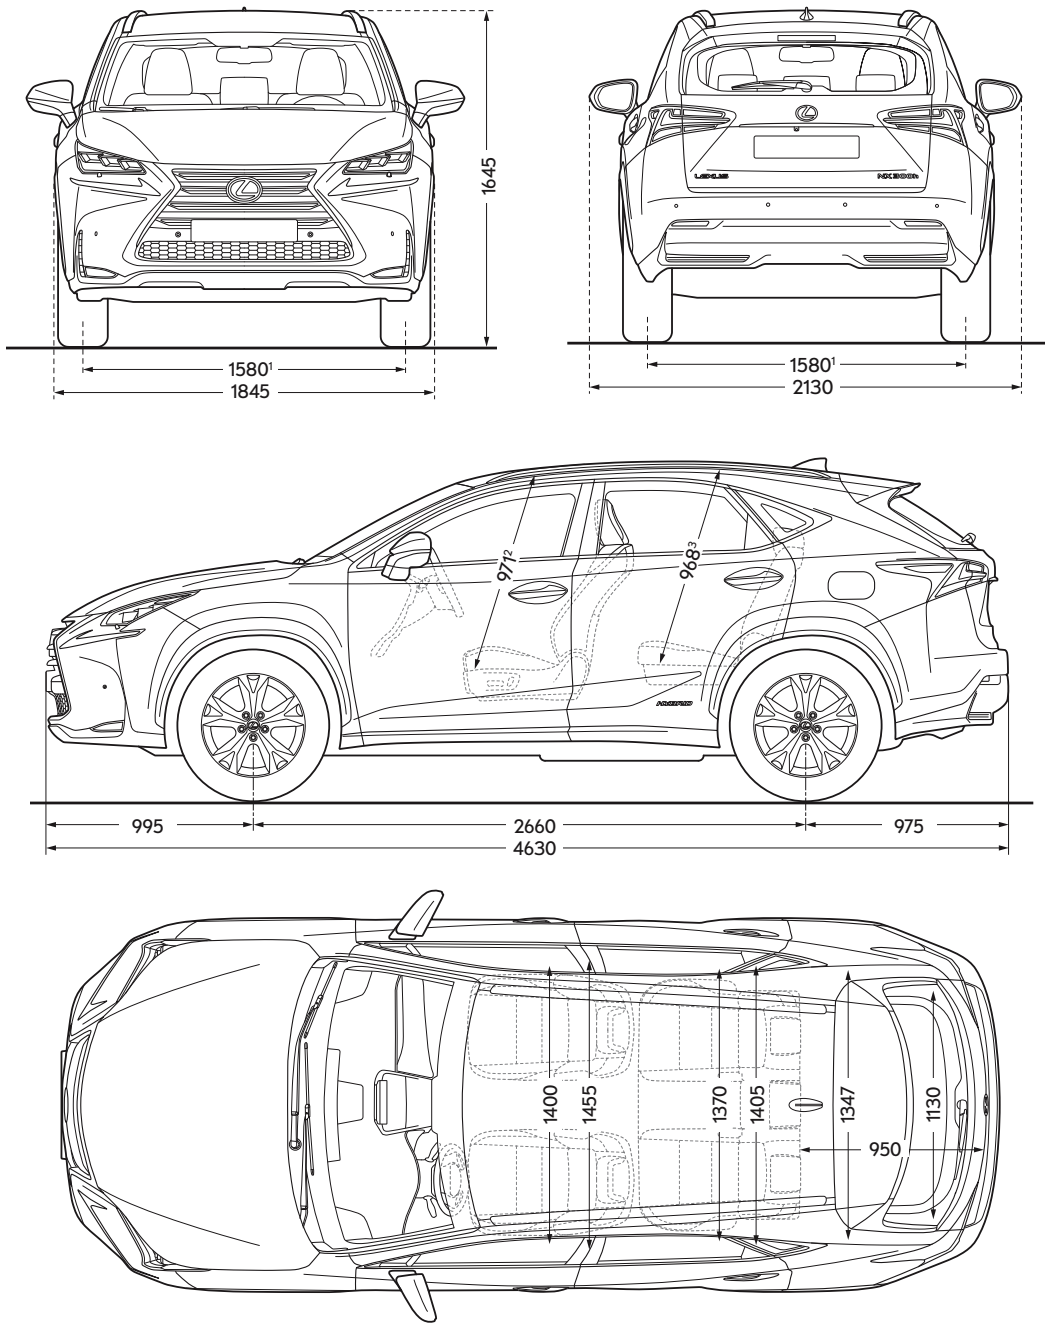
[3] Figures vary by grade and alloy wheel size. The first figure is for the NX 200t AWD Comfort, Business, Executive and Luxury grades specified as standard with 18" alloy wheels. The second figure is for the NX 200t AWD F SPORT grade specified as standard with 18" alloy wheels.

[4] Figures vary by grade. The first figure(s) is (are) for the NX 300h FWD Eco grade. The second figure(s) is (are) for all other NX 300h FWD grades.

[5] First figure is for the vehicle specified with a temporary spare wheel. Second figure is for the vehicle specified with a tyre repair kit.

* The fuel consumption and CO_2 values are measured in a controlled environment, in accordance with the requirements of Directive 80/1268/EEC incl. its amendments, on a vehicle with European Standard equipment. For further information, or if you are interested in purchasing a vehicle with European Standard equipment, please contact your Lexus Authorised Importer. The fuel consumption and CO_2 values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, installed equipment, load, number of passengers, etc) play a role in determining a car's fuel consumption and CO_2 emissions.

Please note: further Technical Data, including any updates, can be found at **www.lexus.eu**



[1] When specified with 235/55 R18 tyres, both the front and rear track figures are 1570.
[2] When specified with a sunroof the front headroom figure is 950 and when specified with a panoramic roof it is 976.
[3] When specified with a sunroof the rear headroom figure is 967 and when specified with a panoramic roof it is 938.

Please note: the dimensions illustrated / noted are measured in millimetres.

STANDARD EQUIPMENT FOR ALL GRADES

ACTIVE SAFETY AND DRIVING DYNAMICS

Active brake lights
Braking, stability, steering and traction systems[1]
- ABS / BAS / EBD / ECB-R (NX 300h) / EPB / EPS / TRC / VSC

Drive Mode Select
- ECO / NORMAL / SPORT

EV (Electric Vehicle) mode (NX 300h)
Hill-start Assist Control (HAC)
Tyre Pressure Warning System (TPWS)

PASSIVE SAFETY

8 airbags in total
- driver and front passenger; head, side and knee
- cabin sides; full-length curtain shield

Airbag cut-off switch, front passenger
Audible and visual front seatbelts reminder
ISOFIX attachment, outer rear seats
Pedestrian protection
- impact absorbing structure to lessen injuries

Seatbelt pre-tensioners, front and rear outer seats
Whiplash Injury Lessening (WIL) front seats with active headrests

EXTERIOR

Antenna, shark fin design
Door handles
- keyhole-less design
- seamless and dynamic design

Door mirrors
- electrically adjustable, auto-folding and heated

Lexus spindle grille
Paintwork with 'self-restoring coat'
Rear combination lights, LED
- including rear fog and high-level brake

Side windows frame, chrome edging
Twin aluminium exhaust pipes (NX 200t)
Ultra Violet (UV) and heat insulating tinted glass
Water-repellent glass, front door windows
Wheel arches, with protective mouldings

SECURITY

Alarm and immobiliser
Auto door locking
Double door lock

AUDIO, COMMUNICATION AND INFORMATION

4 x dial meters instrumentation (Optitron)
- 3-dimensional main dials with non linear scaling
- metallic faces and silver ornamentation

4.2" colour TFT multi-information display
7" central, fixed colour display screen
- controlled by rotary dial

Analogue clock
Dual instrumentation
Eco driving indicator
Paddle shifts (NX 200t)
Power meter (NX 300h)
Steering wheel mounted controls

INTERIOR COMFORT AND CONVENIENCE

12 V socket
Electrically operated windows, front and rear
Electronic climate control
- 2-zone / automatic air-recirculation control
- pollen removal and deodoriser / S-Flow

Front centre armrest with storage box and 2 cup holders
Push start button
Rear centre armrest with storage space and 2 cup holders
Rear seat bench, 60:40 split-folding (manual operation)
Side indicators, one-touch 3 x repeat with auto return

[1] ABS = Anti-lock Braking System / BAS = Brake Assist System / EBD = Electronic Brake-force Distribution / ECB-R = Electronically Controlled Braking-Regeneration / EPB = Electric Parking Brake / EPS = Electric Power Steering / TRC= Traction Control / VSC = Vehicle Stability Control

ADDITIONAL EQUIPMENT BY GRADE

ECO (NX 300h FWD only)

(In addition to standard equipment)

3-spoke, leather trimmed steering wheel
- manually multi-adjustable

17" alloy wheels, 10-spoke design
- 225/65 R17 tyres

Daytime running lights
- eco design

Fabric upholstery
Front seats, supportive comfort design
- 6-way manual adjustment (driver and passenger)

Headlights
- LED low-beam and halogen high-beam

Inlays, piano black
Rear-view mirror, manual dimming adjustment
Scuff plates, standard design
Shift lever, part trimmed in leather

COMFORT

(In addition / different to Eco)

8-speaker Pioneer® audio system
18" alloy wheels, 5-twin-spoke design
- 225/60 R18 tyres

AM/FM tuner with Digital Signal Processor (DSP)
AUX socket, VTR compatible & 1 x USB port
Bluetooth® mobile phone and audio connectivity
Daytime running lights
- full LED illumination

In-dash, single-slot CD player
Lexus Media Display
- enhanced multi-information & central display screen functionality
- mirror-linking functionality

Rain sensing windscreen wipers
Roof rails, integral design
Towing capability (NX 300h AWD and NX 200t)

BUSINESS

(In addition / different to Comfort)

Cruise control
Front fog lights, LED
- with cornering light function

Heated front seats
Inlays, silver
Parking assist sensors, front and rear
Rear-view mirror, electro chromatic (auto-dimming)
Smart entry system
- door handles, LED illumination

Tahara trim upholstery

EXECUTIVE

(In addition / different to Business)

Front seats, electrically adjustable
- 8-way adjustment (driver and passenger)

Leather upholstery
Privacy glass (rear side, back)
Scuff plates, upgraded design

F SPORT (NX 300h AWD AND NX 200t AWD)

(In addition / different to Executive)

18" alloy wheels, F SPORT shaded design
- 235/55 R18 tyres

Active Sound Control (ASC) (NX 300h)
Adaptive Cruise Control (ACC)
- millimetre-wave radar (all-speed)

Headlights
- high-pressure cleaners
- LED low- and high-beam

F SPORT, exclusive exterior features
- accentuated spindle grille design
- aerodynamically enhanced front bumper with spoiler
- distinctive black L-mesh grille
- matt black door mirror housings and side logos

F SPORT, exclusive interior features
- black roof lining
- boost meter (NX 200t)
- drilled aluminium sport pedals
- F SPORT leather upholstery in exclusive colours
- G-sensor
- inlays, carbon
- perforated leather trim for steering wheel and gearshift
- scuff plates, unique F SPORT design
- steering wheel with F SPORT logo and paddle shifts

Front seats, F SPORT design
- accentuated sport design
- increased lateral support
- integral foam construction (unique to Lexus)

Lumbar support, electrically adjustable, 2-way (driver)
Performance dampers, front and rear
Pre-Crash Safety (PCS) system
- millimetre-wave radar

Rear-view monitor
Steering wheel, electrically multi-adjustable
Tailgate, electrically operated

LUXURY (NX 300h AWD AND NX 200t AWD)

(In addition / different to Executive)

18" alloy wheels, 5-wide-spoke design
- 225/60 R18 tyres

Adaptive Cruise Control (ACC)
- millimetre-wave radar (all-speed)

Card key
Headlights
- high-pressure cleaners
- LED low- and high-beam

Door mirrors, additionally electro chromatic
Inlays, choice of wood styles
Memory (3 pre-sets)
- driver's seat, steering wheel and door mirrors

Pre-Crash Safety (PCS) system
- millimetre-wave radar

Rear-view monitor
Steering wheel, electrically multi-adjustable
Tailgate, electrically operated
Ventilated front seats

– = not available / o = available to order as an option or a pack at extra cost / s = standard

* NX 300h FWD only.
[1] For Comfort grade only, the same design of alloy wheels as is standard for the Eco grade can be ordered to reduce the CO_2 emissions figure.
[2] For Eco grade, this accessory option can only be ordered in combination with the Lexus Media Display plus pack.
[3] If this option is specified, the otherwise standard fitment roof rails are not supplied due to technical reasons.
[4] For Eco grade, this option can either be ordered in combination with the Lexus Media Display plus pack or as part of the sensor technology pack.
[5] If this option is specified, the rear seat backrests can also be partially reclined electrically.
[6] For Eco grade only, this option is only available as part of the Lexus Media Display plus pack.
[7] For Eco grade only, this option can only be ordered in combination with the Lexus Media Display plus pack.
[8] Comfort grade is specified with rain sensing windscreen wipers as standard. For this grade, only the electro chromatic rear-view mirror is included with the pack.
[9] Luxury grade is specified with memory and electro chromatic door mirrors as standard. For this grade, these options are not included with the pack.

Please note: not all options and packs are available in all countries. Also, certain options and/or packs may need to be ordered in combination with one another or cannot be ordered together.
Please consult your local Lexus Authorised Retailer for further information regarding options and/or packs availability in your country.

MULTIMEDIA & DRIVER ASSIST

Lexus Media Display plus
Lexus Media Display
- enhanced multi-information & central display screen functionality
- mirror-linking functionality

plus[1]

- Automatic High Beam (AHB)

[1] Rain sensing wipers or tuner additionally with DAB technology can be added to the Lexus Media Display plus pack at additional cost.
[2] Please consult your local Lexus Authorised Retailer for details of the Lexus Connected Services which are available in your country.

ACCESSORIES

DETACHABLE TOWING HITCH*

Integrates with the NX's chassis to evenly distribute the pulling and braking forces of towing, thus minimising the risk of stress damage to your crossover. It has a 1500 kg towing capacity and the hitch removes when not required. The purpose-designed wiring kit includes safety buffers to shield your car's electrics against faults in the trailer's system.

* Not available on NX 300h FWD models.

RUBBER FLOOR MATS

The ultimate in tough protection against mud, dirt, sand and dust for NX cabin carpets. The driver's mat has a special safety fixing to hold it firmly in place.

TEXTILE FLOOR MATS

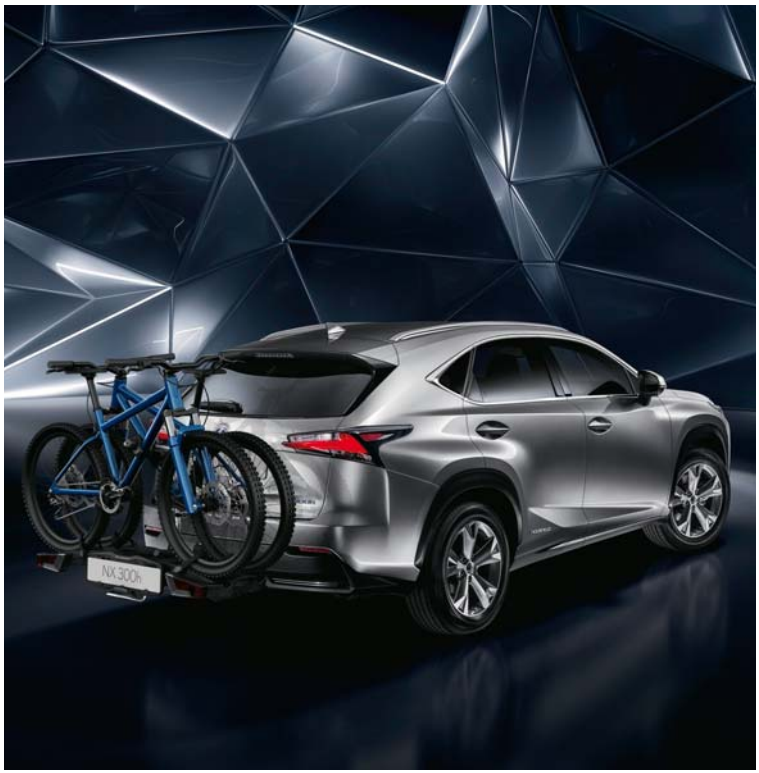
Luxurious black textile mats made of acuvelour to complement the sound absorbing qualities of your car's carpets. The driver's mat has a safety fixing to prevent it from slipping.

BOOT LINER

Made of tough, flexible plastic with a non-slip surface pattern and a raised lip around the edges to comprehensively protect the luggage space carpet against mud, dirt, sand and liquids.

BOOT MAT

A stylish, hard-wearing textile mat to protect the luggage space carpets. Its tailored design fits around or across the rear seats when one or both are folded flat.



FOLDABLE REAR BICYCLE RACK*

The safe way to transport one or two bicycles including mountain, sports and e-bikes. The modern stand-alone design allows tilting for boot access even when loaded and is fully foldable for easy installation, handling and storage. It features security locking for bike to carrier and carrier to car and has an integral lights and licence plate holder with a 7-pin socket.

* Not available on NX 300h FWD models.

LUGGAGE BOX

Streamlined for aerodynamic efficiency, but with a capacious 410-litre volume. The box opens from both sides for easy loading, has multi-point central locking and is finished in silver grey with an 'aeroskin' textured lid.

WIND DEFLECTORS

The aerodynamic shape of the deflectors helps maintain personal comfort by minimising in-cabin wind noise and turbulence when driving with open windows.

PORTABLE DVD PLAYER

With its 7" screen, the portable DVD player is perfect for entertaining passengers on long journeys. It slots into a Lexus seat-back docking device and offers comprehensive multimedia compatibility including USB, SD card and smartphone AV input. You can even use it at home with a suitable power adapter. An additional docking device, DVD unit and wireless headphones are available as extras.

HOLDER FOR iPAD®

Slots securely into a Lexus docking device on the rear of a front seat to provide a stable base for passengers to use their tablet and watch content as they travel. Available in powered and non-powered versions.

LEXUS CARE

At Lexus, we believe in Creating Amazing. This is as true for our service and after-sales programmes as it is for the cars themselves. Throughout your vehicle's life, Lexus Care ensures a first class ownership experience, offering bespoke service and maintenance plans, each designed to provide complete satisfaction and total peace of mind.

Lexus cars are equipped with the world's most advanced technology to provide an amazing 'Omotenashi' (the Japanese spirit of hospitality) experience. Reflecting our unique approach to building cars, we also aim to treat each customer as we would a guest in our home. This world-class service philosophy has led to details like (for example) fresh flowers in handover rooms, spotlessly clean service bays, and a complimentary car wash.

After delivering each new Lexus, we see caring for your car as the equivalent of caring for you, our customer. Lexus Authorised Retailers are committed to delivering the highest level of customer satisfaction. You can catch up on the news with a cappuccino in our comfortable lounge area, or browse the internet at your leisure. Meanwhile, our technicians perform their tasks with optimum efficiency to get you back on the road with minimum interruption to your day.

LEXUS SERVICE

Lexus Service is an invitation for you to entrust the wellbeing of your Lexus to dedicated professionals and an opportunity for us to offer unparalleled levels of care. Exhaustive staff training and continuous career development programmes help provide you with the peace of mind that we're doing our utmost to ensure your Lexus stays in showroom condition.

- Professional Lexus technicians
- Genuine Lexus parts
- Lexus service history protects re-sale value
- Thorough visual safety report
- Lexus service tailored to your needs
- State-of-the-art facilities and equipment

LEXUS WARRANTY

- 3-year or 100,000 km comprehensive warranty
- 3-year surface rust and paintwork warranty
- 12-year corrosion warranty
- 5-year or 100,000 km warranty on certain hybrid components

LEXUS MOBILITY

We want to ensure that you enjoy driving your Lexus anywhere in Europe with complete peace of mind. This is why we provide free Lexus Euro Assistance 24* for the first three years of ownership. This programme ensures your mobility, to take you where you need to go. Part of this could include, for example, towing, hotel accommodation, car hire, repatriation of the vehicle and many more services should your Lexus be immobilised, stolen, or involved in a collision.

* Conditions may vary between countries. Please consult your Lexus Authorised Retailer or Repairer for details.

EXPERIENCE THE NEW NX

Please contact your nearest Lexus Authorised Retailer for a test drive.
